Special Notices

It's Not Too Late!
Fiscal Year 2007 Fire Prevention and Safety
Grants

There is still time to submit an application for
the Department of Homeland Security, FY 07
Fire Prevention and Safety Grants!

Applications for these grants must be
received by November 30, 2007, at 5:00 p.m.
Eastern Time.

Fire Prevention and Safety Grants are competitive. Projects can include arson prevention, sprinkler awareness, smoke alarm installation, burn prevention and fire prevention public education.

Grant writing technical assistance is available, including an online tutorial at www.firegrantsupport.com. The tutorial will provide you with valuable grant information and will walk you through the preparation and submittal of competitive applications. In addition, the applicant tutorial will provide an overview of the funding priorities and evaluation criteria. Applicants who have questions regarding the Fire Prevention and Safety Grants opportunity should call the help desk at 1-866-274-0960 or send an email to firegrants@dhs.gov. During the application period, the help desk will operate Monday to Friday, from 8:00 a.m. to 4:30 p.m. (eastern time), but is prepared to revise hours of operation based on call volume, demand and holidays.

The AFG Program is administered by the Department of Homeland Security (DHS) Federal Emergency Management Agency's (FEMA) Grants Program Directorate in coordination with the U.S. Fire Administration.

FY07 Fire Prevention and Safety Grants Program Guidance – visit www.firegrantsupport.com/fps/guidance/.

FY07 Fire Prevention and Safety Grants FAQs – visit www.firegrantsupport.com/fps/faq/07/.

U.S. Department of Agriculture

National Research Initiative - Rural Development

The Rural Development Program will focus on developing sustainable rural communities through integrated projects focused on enhancing economic vitality of rural communities and reduce rural poverty; protecting and enhancing economic growth and the natural resource base of rural areas by developing strategies that reduce the competition between economic growth and the

environment; and building a diversified workforce to meet the needs of the present and for the future. Applicants are strongly encouraged to read the entire Program Description section for current priorities and additional information relative to the program of interest. Please carefully review the RFA guidelines to ensure application acceptance.

Who Is Eligible to Apply

- 1862 Land-Grant Institutions
- 1890 Land-Grant Institutions
- 1994 Land-Grant Institutions
- City or Township Governments
- County Governments
- For-profit Organizations Other Than Small Businesses
- Hispanic-Serving Institutions
- Individuals
- Native American Tribal Orgs, not Federally recognized Tribal Governments
- Nonprofits with 501(c)(3) IRS status, other than Institutions of Higher Ed
- Nonprofits without 501(c)(3) IRS status, other than Institutions of Higher Ed
- Other or Additional Information (See below)
- Private Institutions of Higher Ed
- Small Business

More Information on Eligibility

For research applications: Federal agencies, national laboratories, other research institutions and organizations, private organizations or corporations. For integrated applications: research foundations maintained by colleges and universities, private research organizations with established and demonstrated capacities to perform research or technology transfer, Federal research agencies, national laboratories. IMPORTANT! See RFA for specific eligibility requirements.

Recent Federal/State Awards and Legislation Impacting the 8th District

November 15, 2007: Ellsworth Secures Funds for Crane Emerging/Critical Interconnection Technology Program and High Power Fiber Laser

[| Print |](#)

WASHINGTON - Rep. Brad Ellsworth announced he has successfully secured federal funds for two programs at Crane Naval Surface Warfare Center (NSWC).

Ellsworth secured \$800,000 for the Emerging/Critical Interconnection Technology (E/CIT) program. The funds will be used at Crane NSWC in the continued development of Printed Circuit Board manufacturing capabilities, including establishing the criteria, protocols and procedures to meet the unique security requirements of the Department of Defense. The project is part of Crane's E/CIT program to ensure the military has a center focused on the latest American-based Printed Circuit Board technology, processes and equipment essential to our national security. This center provides a variety of critical functions including reverse engineering, repair, and research and development of technologies.

He also secured \$1,600,000 to continue development of a High Power Fiber Laser-based system. The funds were requested by Rose-Hulman Institute of Technology and Science Applications International Corporation (SAIC) and will be used to develop a High Power Fiber Laser prototype at Crane NSWC. The prototype would lead to a system to provide war fighters protection against surface-launched and air-to-air InfraRed guided missiles.

"I am proud of the vital contribution the 8th District makes to our national defense through technological innovation at Crane. These funds will continue the good work Crane has done to ensure our men and women in uniform have the latest technology they need to complete their missions," said Ellsworth. "I am proud to have supported this project, and I will continue to work for federal investment that strengthens our national defense and provides good jobs in the 8th District."

The funding was included as part of the FY 2008 Defense Appropriations bill which was signed into law by President Bush last week.

Integrated Research, Education, and Extension Competitive Grants Program - National Integrated
Food Safety Initiative Grant

Document Type:	Grants Notice
Funding Opportunity Number:	USDA-CSREES-ICGP-001111
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Jan 11, 2008 Letter of Intent Deadline: 12/07/2007
Expected Number of Awards:	25
Estimated Total Program Funding:	\$12,700,000
Award Ceiling:	\$2,000,000
Award Floor:	\$600,000
CFDA Number:	10.303 -- Integrated Programs
Cost Sharing or Matching Requirement:	Yes

Eligible Applicants

Public and State controlled institutions of higher education
Private institutions of higher education
Others (see text field entitled "Additional Information on Eligibility" for clarification)
Institutions must be accredited. Please see the RFA for details.

Description

The purpose of the National Integrated Food Safety Initiative is to support food safety projects that demonstrate an integrated approach to solving problems in applied food safety research, education, or extension. Various models for integration of applied research, education, and extension will be considered for funding. Applications describing multi-state, multi-institutional, multidisciplinary, and multifunctional activities (and combinations thereof) are encouraged. Applicants are strongly encouraged to address at least two of the three functional areas of research, education, and extension (i.e., research and extension, research and education, or extension and education).

United States Department of Agriculture
CSREES
International Science and Education Grants Program Modification 1

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	USDA-CSREES-SERDIP-001095
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Jan 17, 2008
Estimated Total Program Funding:	\$1,900,000
Award Ceiling:	\$100,000
Award Floor:	\$0
CFDA Number:	10.305 -- International Science and Education Grants
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Private institutions of higher education
Others (see text field entitled "Additional Information on Eligibility" for clarification)
Public and State controlled institutions of higher education

Additional Information on Eligibility:

College/university must 1) admit as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate, 2) be legally authorized within such State to provide a program of education beyond secondary education, 3) provide an education program for which a BA/BS or any other higher degree is awarded, 4) be a public or other nonprofit institution, & 5) be accredited by a nationally recognized agency.

Description

The International Science and Education Competitive Grants Program (ISE) supports research, extension, and teaching activities that will enhance the capabilities of American colleges and universities to conduct international collaborative research, extension and teaching. ISE projects are expected to enhance the international content of curricula; ensure that faculty work beyond the U.S. and bring lessons learned back home; promote international research partnerships; enhance the use and application of foreign technologies in the U.S.; and strengthen the role that colleges and universities play in maintaining U.S. competitiveness.

Outreach and Assistance for Socially Disadvantaged Farmers and Ranchers Competitive Grants
Program Modification 1

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	USDA-CSREES-ICGP-001092
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Dec 14, 2007 Request for Determination Deadline: 11/21/2007
Estimated Total Program Funding:	\$5,900,000
Award Ceiling:	\$300,000
Award Floor:	\$100,000
CFDA Number:	10.443 -- Outreach and Assistance for Socially Disadvantaged Farmers and Ranchers
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Native American tribal organizations (other than Federally recognized tribal governments)
Others (see text field entitled "Additional Information on Eligibility" for clarification)
Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education
Public and State controlled institutions of higher education
Native American tribal governments (Federally recognized)

Additional Information on Eligibility:

Postsecondary educational institutions and community-based organizations, networks, or coalitions of community-based organizations that meet certain criteria. Organizations that received funding under this section before Jan. 1, 1996 are also eligible. IMPORTANT! See RFA for specific eligibility requirements.

Description

The Outreach and Assistance for Socially Disadvantaged Farmers and Ranchers Competitive Grants Program (OASDFR) provides funds to organizations to conduct outreach and technical assistance to encourage and assist socially disadvantaged farmers and ranchers to own and operate farms and ranches and to participate in agricultural programs. The OASDFR will support a wide range of outreach and assistance activities in farm management, financial management, marketing, application and bidding procedures, and other areas. The primary purpose of the OASDFR is to deliver outreach and technical assistance, to assure opportunities for socially disadvantaged farmers and ranchers to successfully acquire, own, operate, and retain farms and ranches; and assure equitable participation in the full range of USDA programs.

Department of Defense
Dept. of the Army -- USAMRAA
Department of Defense (DOD) Amyotrophic Lateral Sclerosis Research Program (ALSRP)
Therapeutic Development Award Grant

Document Type:	Grants Notice
Funding Opportunity Number:	W81XWH-07-ALSRP-TDA
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Jan 23, 2008
Expected Number of Awards:	3
Estimated Total Program Funding:	\$4,370,000
CFDA Number:	12.420 -- Military Medical Research and Development
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Unrestricted (i.e., open to any type of entity above), subject to any clarification in text field entitled "Additional Information on Eligibility"

Description

The Amyotrophic Lateral Sclerosis Research Program (ALSRP) Therapeutic Development Award supports the preclinical assessment of therapeutics for amyotrophic lateral sclerosis (ALS). The overall goal of this award mechanism is to promote the introduction of improved therapies for ALS by encouraging ALS investigators to undertake preclinical studies of novel and existing agents. The Therapeutic Development Award is restricted to research in ALS. The proposed studies are expected to be empirical in nature and product-driven, but they may have a hypothesis-driven approach provided the focus is on therapeutics. It is anticipated that the agents, and/or data generated from these awards will lead to the advancement of therapeutics for ALS. Please note that the Therapeutic Development Award mechanism is designed to support preclinical testing of therapeutics for ALS. Studies focused on basic science research (i.e., not therapeutic studies) do not meet the intent of the award mechanism. Additionally, clinical trials will not be supported. Therapeutic Development Award proposals are limited to the areas of programmatic interest listed below. Proposals must focus on one or more of these areas to be considered for funding. Proposals that do not focus on at least one of the following areas will be administratively withdrawn. • Development and/or validation of high-throughput screens to define targets with therapeutic potential or identify lead agents for ALS treatment and be an asset for the ALS research community; • Development, modification, and/or validation of preclinical model systems in order to assess by pharmacological and/or pharmacokinetic testing lead compounds and potential therapeutics in addition to serving as an improved tool for the ALS research community;

• Development of pharmacologic agents through Adsorption, Distribution, Metabolism, Excretion and Toxicity (ADMET) phase; • Design and implementation of full-scale, pilot current Good Manufacturing Practice (cGMP) production of therapeutics and/or delivery systems for use in advanced preclinical and initial clinical trials; • Development of pharmacologic agents to the Investigational New Drug (IND) stage in order to initiate Phase 1 clinical trials after the award's completion. Proposals must include preliminary data relevant to the phase(s) of the preclinical development process covered by the proposed research. The proposal should include a clear statistical plan of analysis if appropriate.

<http://www.grants.gov/search/search.do?&mode=VIEW&flag2006=true&oppId=15691>

Department of Defense
Office of Naval Research
Fiscal Year 2008 ONR Young Investigator Program (YIP) Grant

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	ONRBAA08-002
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Jan 11, 2008
CFDA Number:	12.300 -- Basic and Applied Scientific Research
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Private institutions of higher education
Public and State controlled institutions of higher education

Description

ONR's Young Investigator Program (YIP) seeks to identify and support academic scientists and engineers who have received Ph.D. or equivalent degrees within the last five years (on or after 01 November 2002 for this FY08 competition) and who show exceptional promise for doing creative research. The objectives of this program are to attract outstanding faculty members of Institutions of Higher Education (hereafter also called "universities") to the Department of the Navy's research program, to support their research, and to encourage their teaching and research careers. Proposals addressing research areas as described in the ONR Science and Technology (S&T) Department section of ONR's website at www.onr.navy.mil which are of interest to ONR Program Officers and Division Directors will be considered. Contact information for each Division (a subgroup of an S&T Department) is also listed within the S&T section of the website. Potential applicants may contact the appropriate Division Director, or the Program Officer who is the point-of-contact for a specific technical area, to discuss their research ideas. Brief informal pre-proposals may be submitted to facilitate these discussions. Such

discussions can clarify the content and breadth of the priority research areas and enhance the match between a subsequent proposal and Department of the Navy research needs. An individual wishing to apply for a Young Investigator award must submit a research proposal and a supporting letter through the appropriate university officials. ONR makes awards to institutions, not to individuals. The research proposal should follow the format described in BAA 08-002 Section IV entitled, "Application and Submission Information. Proposals may request up to \$100,000 per year for three (3) years. These funds may be budgeted against any reasonable costs related to the conduct of the proposed research, for example, salary for the Young Investigator, graduate student support, supplies, and operating expenses. Additional funds (beyond the basic \$100,000 yearly amount) for capital equipment which enhances the Young Investigator's proposed research may be requested for the first budget period, based on the needs of the research. Requesting funds for capital equipment will not decrease the probability of receiving an award; additional support for equipment will be decided separately from award selections and will depend upon availability of funds. The basic \$100,000 per year award can be supplemented through a "matching funds" enhancement available only to those receiving an ONR Young Investigator award. As an incentive for becoming involved with other Department of the Navy research activities, the Office of the Director of Research of ONR may match on a 1-for-1 basis, the first \$25,000 of additional Department of the Navy funding which a successful applicant obtains each year to support additional, collaborative research with a Navy laboratory during the YIP award. Potential sources of research support eligible for the 1-for-1 match include Navy laboratories and ONR Program Officers. Thus, this "matching funds" clause can provide research support over and above the basic \$100,000 per year award, e.g. to support an additional graduate student and an additional research task. A Young Investigator is not prohibited from receiving more than \$25,000 from other Department of the Navy sources; however, the Office of the Director of Research will match on a 1-for-1 basis only the first \$25,000 each year. Other Navy support eligible for matching funds can be arranged at any time and generally will not have been identified at the time of the initial award. ONR Program Officers will assist, upon request, Young Investigators in identifying potential collaborators at Navy laboratories. ONR Program Officers will also assist successful applicants who wish to seek support from other parts of the Department of the Navy in identifying individuals at other Navy organizations who may be interested in funding additional research by the Young Investigator. Upon completion of the three (3) year award period, Young Investigators may apply to ONR for continued support under ONR's regular research grant program. Decisions about continued funding outside the context of the YIP will be made following a review of the new proposal by the cognizant Program Officer, based on the merits of the proposal, ONR's research priorities, and the creativity and productivity exhibited during the previous Young Investigator research program. The competition in past years has been severe. Last year, 214 proposals were received, resulting in 33 Young Investigator awards. Past awardees have both submitted outstanding research proposals and possessed outstanding records of prior professional accomplishments. Given that "past performance" is a selection criterion, applicants are advised that the biographical information submitted as part of the proposal (see "Qualifications" under "Proposal Content", below) should list all relevant past activities. Those proposals not selected for Young Investigator awards are automatically considered for ONR's regular research grant program in competition with all other research proposals submitted to ONR Long Range BAA. Typically, additional proposals originally submitted to the Young Investigator Program have been selected each year for funding via the regular research grant program. Thus, the YIP is not a "research initiation" opportunity with standards that are less demanding than ONR's regular research grant program. ONR's Young Investigator

awards are intended to confer honor upon awardees beyond the research funding being provided.

Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Native American tribal organizations (other than Federally recognized tribal governments)
Native American tribal governments (Federally recognized)
Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education
Public and State controlled institutions of higher education

Independent school districts
Others (see text field entitled "Additional Information on Eligibility" for clarification)
County governments

Additional Information on Eligibility:

Eligible Applicants: (1) IHEs; (2) combinations of IHEs; (3) partnerships between nonprofit educational organizations and IHEs; and (4) public and private nonprofit agencies and organizations, including professional and scholarly associations.

Description

•Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information. Purpose of Program: The Undergraduate International Studies and Foreign Language (UISFL) Program provides grants to strengthen and improve undergraduate instruction in international studies and foreign languages. Catalog of Federal Domestic Assistance (CFDA) Number: 84.016A. Applications for grants under the UISFL Program, CFDA Number 84.016A, must be submitted electronically using the Governmentwide Grants.gov Apply site at <http://www.Grants.gov>. Through this site, you will be able to download a copy of the application package, complete it offline, and then upload and submit your application. You may not e-mail an electronic copy of a grant application to us. You may access the electronic grant application for the UISFL Program at <http://www.Grants.gov>. You must search for the downloadable application package for this competition by the CFDA number. Do not include the CFDA number's alpha suffix in your search (e.g., search for 84.016, not 84.016A). The telephone number for the Grants.gov Helpdesk is 1-800-518-4726.

U.S. Department of Education
Rehabilitation of Individuals Who Are Mentally Ill CFDA 84.129H Modification 1

Document Type: Modification to Previous Grants Notice
Funding Opportunity Number: ED-GRANTS-103007-004

Opportunity Category:	Discretionary
Current Closing Date for Applications:	Nov 19, 2007 The Assistant Secretary extends the deadline dates for the submission of applications for several Rehabilitation Training: Rehabilitation Long-Term Training programs. In all of the affected competitions, the Assistant Secretary is making new awards for fiscal year (FY) 2008. The Assistant Secretary takes this action to allow more time for the preparation and submission of applications by potential applicants affected by the wildfires in southern California. The extension of the application deadline date for these competitions is intended to help potential applicants compete fairly with other applicants under these programs. Note: Information related to each of these competitions can be found under the chart entitled "List of Programs Affected" in the SUPPLEMENTARY INFORMATION section of the notice attached to this Web Page. Eligibility: The extension of deadline dates in this notice applies to States and public or nonprofit agencies and organizations, including Indian tribes and institutions of higher education, that are located in a Federally-declared disaster area, as determined by the Federal Emergency Management Agency (FEMA) (see http://www.fema.gov/news/disasters.fema), and adversely affected by the wildfires in California. You must provide a certification in your application that you meet one of these criteria for submitting an application on the Extended Deadline and be prepared to provide appropriate supporting documentation, if requested. The submission of the electronic application serves as your attestation that you meet the criteria for submitting an application on the Extended Deadline.
Expected Number of Awards:	2
Estimated Total Program Funding:	\$200,000
Award Ceiling:	\$100,000
CFDA Number:	84.129 -- Rehabilitation Long-Term Training
Cost Sharing or Matching Requirement:	<input checked="" type="checkbox"/> Yes

Eligible Applicants

Independent school districts
 Native American tribal governments (Federally recognized)
 Private institutions of higher education
 Small businesses
 Public and State controlled institutions of higher education
 Others (see text field entitled "Additional Information on Eligibility" for clarification)
 Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
 Native American tribal organizations (other than Federally recognized tribal governments)
 Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education

State governments
County governments
Special district governments
City or township governments

Additional Information on Eligibility:

Eligible Applicants: States and public or nonprofit agencies and organizations, including Indian tribes and institutions of higher education.

U.S. Department of Education

Rehabilitation of Individuals Who Are Deaf or Hard of Hearing CFDA 84.129Q Grant

Document Type:

Grants Notice

Funding Opportunity Number:

ED-GRANTS-103007-007

Opportunity Category:

Discretionary

Current Closing Date for Applications:

Nov 19, 2007 The Assistant Secretary extends the deadline dates for the submission of applications for several Rehabilitation Training: Rehabilitation Long-Term Training programs. In all of the affected competitions, the Assistant Secretary is making new awards for fiscal year (FY) 2008.

The Assistant Secretary takes this action to allow more time for the preparation and submission of applications by potential applicants affected by the wildfires in southern California. The extension of the application deadline date for these competitions is intended to help potential applicants compete fairly with other applicants under these programs. Note: Information related to each of these competitions can be found under the chart entitled "List of Programs Affected" in the SUPPLEMENTARY INFORMATION section of the notice linked to this Web Page. Eligibility: The extension of deadline dates in this notice applies to States and public or nonprofit agencies and organizations, including Indian tribes and institutions of higher education, that are located in a Federally-declared disaster area, as determined by the Federal Emergency Management Agency (FEMA) (see <http://www.fema.gov/news/disasters.fema>), and adversely affected by the wildfires in California. You must provide a certification in your application that you meet one of these criteria for submitting an application on the Extended Deadline and be prepared to provide appropriate supporting documentation, if requested. The submission of the electronic application serves as your attestation that you meet the criteria for submitting an application on the Extended Deadline.

Expected Number of Awards:	5
Estimated Total Program Funding:	\$500,000
Award Ceiling:	\$100,000
CFDA Number:	84.129 -- Rehabilitation Long-Term Training
Cost Sharing or Matching Requirement:	Yes

Eligible Applicants

- Private institutions of higher education
- City or township governments
- Native American tribal organizations (other than Federally recognized tribal governments)
- Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education
- Special district governments
- Native American tribal governments (Federally recognized)
- Independent school districts
- County governments
- Public housing authorities/Indian housing authorities
- Others (see text field entitled "Additional Information on Eligibility" for clarification)
- State governments
- Public and State controlled institutions of higher education
- Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher

education

Additional Information on Eligibility:

Eligible Applicants: States and public or nonprofit agencies and organizations, including Indian tribes and institutions of higher education.

US Department of Energy

US Department of Energy
Golden Field Office
Entrepreneur in Residence Grant

Document Type:	Grants Notice
Funding Opportunity Number:	DE-PS36-08GO98001
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Dec 21, 2007 In order for the Solar Program to meet programmatic requirements, the applications are due on 12/21/2007
Expected Number of Awards:	3
Estimated Total Program Funding:	\$300,000
Award Ceiling:	\$100,000
Award Floor:	\$10,000
CFDA Number:	81.087 -- Renewable Energy Research and Development
Cost Sharing or Matching Requirement:	Yes

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Eligibility is restricted to established venture capital firms (defined as establishments primarily engaged in acting as principals (except investment bankers, securities dealers, and commodity contracts dealers) in buying or selling of financial contracts generally on a spread basis; principals are investors that buy or sell for their own account) with at least

\$10 million in funds available for energy efficiency and renewable energy technology investment and an overall current fund size of at least \$100 million.

Description

A link to the full Funding Opportunity Announcement is found by scrolling to the bottom of this page. This is a restricted eligibility announcement. In accordance with 10 CFR 600.6(b), eligibility for award is restricted to established venture capital firms (defined as establishments primarily engaged in acting as principals (except investment bankers, securities dealers, and commodity contracts dealers) in buying or selling of financial contracts generally on a spread basis; principals are investors that buy or sell for their own account). Eligible firms must certify that they have at least \$10 million in funds available for energy efficiency and renewable energy technology investment, an overall current fund size of at least \$100 million, a proven track record of launching successful start up businesses, and must demonstrate previous EIR experience. In addition, FFRDC contractors are not eligible for an award under this announcement and may not be included as a team member. DOE is seeking to partner with leading Venture Capital (VC) firms in a pilot program to develop robust Entrepreneur in Residence (EIR) projects at three of DOE's national laboratories: the National Renewable Energy Laboratory (NREL), Sandia National Laboratory (SNL) and Oak Ridge National Laboratory (ORNL). The projects will identify and develop business cases to commercialize promising laboratory technology and give proven start-up entrepreneurs the opportunity to work directly with technical management and staff at a specified national laboratory to identify technologies that, when commercialized in start-up companies, will contribute to DOE's mission. Successful applicants will conduct technology assessments, identify market opportunities, formulate preliminary business cases, and propose business structures for start-up enterprises, as well as recommend policy and business practice modifications to the national laboratories to further refine their approaches to moving technology into the commercial sector. Applications for this Funding Opportunity Announcement must be accessed, completed, and submitted through Grants.gov at <http://www.grants.gov> to be considered for award. Questions regarding the content of the announcement should be submitted through the Submit Question feature of the DOE Industry Interactive Procurement System (IIPS) at <http://e-center.doe.gov>. **VERY IMPORTANT:** To complete and submit applications through Grants.gov, there are several actions you must complete (e.g., obtain a Dun and Bradstreet Data Universal Numbering System (DUNS) number, register with the Central Contract Registry (CCR), install the PureEdge Viewer, register with the credential provider, and register with Grants.gov). Applicants are highly encouraged to register as soon as possible and should allow at least 21 days to complete the registration process. When done, call the Grants.gov Helpdesk at 1-800-518-4726 to verify successful registration. Registration Instructions are found on the Grants.gov web site at <http://www.grants.gov> and in the Funding Opportunity Announcement. Note that Grants.gov does not currently support the new Microsoft Vista Operating system, and the PureEdge software used by Grants.gov for forms is not compatible with Vista. Go to http://www.grants.gov/help/general_faqs.jsp#15 for additional information. Should you have questions regarding the operation of Grants.gov, please contact the Grants.gov Contact Center at support@grants.gov or 1-800-518-4726. Contact Center hours of operation are Monday - Friday from 7:00am to 9:00pm Eastern Standard Time.

Expected Number of Awards:	10
Estimated Total Program Funding:	\$4,500,000
Award Ceiling:	\$2,750,000
Award Floor:	\$0
CFDA Number:	81.087 -- Renewable Energy Research and Development
Cost Sharing or Matching Requirement:	Yes

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Topics 1 and 2 are not restricted. Topic 3 is restricted to University Programs.

Description

A link to the full Funding Opportunity Announcement (FOA) is found by scrolling to the bottom of this page. The U.S. Department of Energy (DOE), Office of Energy Efficiency and Renewable Energy, announces a notice of availability of funds for financial assistance addressing hydrogen education development. Hydrogen fueling stations and fuel cell vehicles are entering the public space today through demonstration projects, and stationary and portable fuel cells have already reached the commercial market in some niche applications. Current public knowledge and awareness levels of hydrogen and fuel cells are low, however, and prevalent misunderstandings of hydrogen properties have affected negative opinions about the safe use of hydrogen as an energy carrier. The DOE's Hydrogen, Fuel Cells, and Infrastructure Technologies (HFCIT) Program seeks to facilitate near-term market transformation and future

commercialization by providing technically accurate and objective information to key target audiences, including: state and local government representatives, potential end users, safety and code officials, and local communities. Undergraduate and graduate students, professors, and middle and high school teachers and students comprise another important audience, as they are our Nation's future researchers, scientists, engineers, technicians, and technology users. This Funding Opportunity Announcement is requesting applications for hydrogen education development in three topic areas: Topic 1, State and Local Government Outreach, Topic 2, Early Deployment and Education, and Topic 3, University Programs. Applications for this FOA must be accessed, completed, and submitted through Grants.gov at <http://www.grants.gov> to be considered for award. Questions regarding the content of the announcement should be submitted through the Submit Question feature of the DOE Industry Interactive Procurement System (IIPS) at <http://e-center.doe.gov>. VERY IMPORTANT: To complete and submit applications through Grants.gov, there are several actions you must complete (e.g., obtain a Dun and Bradstreet Data Universal Numbering System (DUNS) number, register with the Central Contract Registry (CCR), install the Pure Edge Viewer, register with the credential provider, and register with Grants.gov). Applicants are highly encouraged to register as soon as possible and should allow at least 21 days to complete the registration process. When done, call the Grants.gov Helpdesk at 1.800.518.4726 to verify successful registration. Registration Instructions are found on the Grants.gov web site at <http://www.grants.gov> and in the Funding Opportunity Announcement. Should you have questions regarding the operation of Grants.gov, please contact the Grants.gov Contact Center at support@grants.gov or 1.800.518.4726. Contact Center hours of operation are Monday through Friday from 7:00am to 9:00pm Eastern Standard Time.

Golden Field Office

Solar America Initiative Market Transformation: Solar America Cities 2008 Grant

Document Type:	Grants Notice
Funding Opportunity Number:	DE-PS36-08GO98003
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Jan 10, 2008 In order for the Solar Technology Program to meet programmatic requirements, the applications are due on 01/10/2008.
Expected Number of Awards:	12
Estimated Total Program Funding:	\$2,400,000
Award Ceiling:	\$200,000
Award Floor:	\$50,000

CFDA Number: 81.117 -- Energy Efficiency and Renewable Energy Information Dissemination, Outreach, Training and Technical Analysis/Assistance

Cost Sharing or Matching Requirement: Yes

Eligible Applicants

City or township governments

Additional Information on Eligibility:

Eligibility is restricted to the 243 incorporated places with populations of 100,000 or more as determined by the U.S. Census Bureau (2000 census) as defined at <http://www.census.gov/population/cen2000/phc-t5/tab02.pdf>. For the purposes of this FOA, these places are referred to as Cities. This eligibility was made to maximize visibility of Federal investment in solar infrastructure given limited Federal resources and a 2015 timeframe for SAI success. Eligible Cities may form teaming arrangements with other cities in close geographical proximity including unincorporated places that are not eligible to apply on their own and other cities with populations of less than 100,000. The eligible City, however, must apply as the prime recipient, and DOE will provide its assistance only through that prime eligible City. Federally Funded Research and Development Centers (FFRDCs) are ineligible to apply or contribute to the Applicant's proposed projects under this FOA. The thirteen cities (2007 Solar Cities) funded under the 2007 SAI City Strategic Partnership FOA (Solar America Cities) as prime recipients, namely, Ann Arbor (MI), Austin (TX), Berkeley (CA), Boston (MA), Madison (WI), New Orleans (LA), New York (NY), Pittsburgh (PA), Portland (OR), Salt Lake City (UT), San Diego (CA), San Francisco (CA), and Tucson (AZ), are ineligible to apply under this FOA. The 2007 Cities may be a part of a teaming arrangement as described above, but may not apply as a prime recipient or receive federal funds under these awards.

Description

A link to the full Funding Opportunity Announcement is found by scrolling to the bottom of this page. In accordance with 10 CFR 600.6(b), this announcement has a restricted eligibility as follows: 1. Eligibility is restricted to the 243 incorporated places with populations of 100,000 or more as determined by the U.S. Census Bureau (2000 census) as defined at <http://www.census.gov/population/cen2000/phc-t5/tab02.pdf>. For the purposes of this FOA, these places are referred to as Cities. This eligibility was made to maximize visibility of Federal investment in solar infrastructure given limited Federal resources and a 2015 timeframe for SAI success. Eligible Cities may form teaming arrangements with other cities in close geographical proximity including unincorporated places that are not eligible to apply on their own and other cities with populations of less than 100,000. The eligible City, however, must apply as the prime recipient, and DOE will provide its assistance only through that prime eligible City. 2. Federally Funded Research and Development Centers (FFRDCs) are ineligible to apply or contribute to the Applicant's proposed projects under this FOA. 3. The thirteen cities (2007 Solar Cities) funded under the 2007 SAI City Strategic Partnership FOA (Solar America

Cities) as prime recipients, namely, Ann Arbor (MI), Austin (TX), Berkeley (CA), Boston (MA), Madison (WI), New Orleans (LA), New York (NY), Pittsburgh (PA), Portland (OR), Salt Lake City (UT), San Diego (CA), San Francisco (CA), and Tucson (AZ), are ineligible to apply under this FOA. The 2007 Cities may be a part of a teaming arrangement as described above, but may not apply as a prime recipient or receive federal funds under these awards. The purpose of this Funding Opportunity Announcement (FOA) is to form strategic partnerships with U.S. cities as part of the Solar America Initiative (SAI). These Federal-city partnerships are intended to accelerate the adoption of solar technology across the nation by engaging city governments as significant users of electricity, key intermediaries to other end users within their jurisdiction, and regulatory entities. As the load centers of energy use across the nation, cities play a strategic role in the SAI and present unique challenges and opportunities for solar market transformation. Cities can be champions of progressive energy efficiency and renewable energy efforts. DOE wishes to support their bold and innovative approaches to accelerate solar technology adoption at the local level. DOE expects award Recipient cities to develop a fully-scoped city-wide solar implementation plan as a deliverable under this project. Through the Solar America Cities 2008 Funding Opportunity Announcement, DOE will provide funding as well as tailored Technical Assistance to the recipient cities to support their efforts in developing a comprehensive, systemic, city-wide approach to solar technology that facilitates mainstream adoption and provides a model for other cities. Under this Solar America Cities 2008 effort, DOE is looking for cities to commit to achieving a sustainable solar infrastructure, not simply a year or two of experimental solar projects. Applications for this Funding Opportunity Announcement must be accessed, completed, and submitted through Grants.gov at <http://www.grants.gov> to be considered for award. Questions regarding the content of the announcement should be submitted through the Submit Question feature of the DOE Industry Interactive Procurement System (IIPS) at <http://e-center.doe.gov>. VERY IMPORTANT: To complete and submit applications through Grants.gov, there are several actions you must complete (e.g., obtain a Dun and Bradstreet Data Universal Numbering System (DUNS) number, register with the Central Contract Registry (CCR), install the PureEdge Viewer, register with the credential provider, and register with Grants.gov). Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Individuals
See Section III of the announcement for additional eligibility information.

Description

EPA Region 1 Pesticide Program is seeking applications from eligible organizations that will facilitate the implementation of the Food Quality Protection Act (FQPA). The program supports efforts to reduce the exposure to toxic pesticides through the adoption of production agriculture pest management practices that transition away from the use of high-risk pesticides. The in-field adoption by farmers of already identified potential low-risk integrated crop or pest management tools and strategies is a priority. The project or projects selected for funding will work towards achieving the adoption of reduced-risk alternatives and /or ecologically-based IPM or biologically integrated farming approaches that are economical. For this competition, the EPA Region 1 Program has approximately \$100,300 available for assistance awards under this Request for Applications (RFA).

Modification 3

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	HRSA-08-045
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Dec 07, 2007
Expected Number of Awards:	4
Estimated Total Program Funding:	\$575,000
Award Ceiling:	\$150,000
CFDA Number:	93.110 -- Maternal and Child Health Federal Consolidated Programs
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

As cited in 42 CFR Part 51a.3(a), any public or private entity, including and Indian tribe or tribal organization, faith based and community based organization (as those terms are defined at 25 U.S.C. 450b), is eligible to apply for this Federal funding. As cited in 42 CFR Part 51a.3(a), any public or private entity, including and Indian tribe or tribal organization, faith based and community based organization (as those terms are defined at 25 U.S.C. 450b), is eligible to apply for this Federal funding.

Description

The goal of this program is to develop, implement, evaluate, and disseminate novel approaches that concurrently address the relationship between women's healthy eating and mental health during the perinatal period. For the purposes of this grant the perinatal period is defined as during pregnancy and up to one year after delivery, including women who may not have had a positive birth outcome. The interventions must be implemented

throughout the entire intervention periods, must be substantive in nature, incorporate nutrition, physical activity and mental health and wellness components, while also positively impacting knowledge, attitudes and behaviors. The mental health component can include addressing depression including post-partum, eating disorders including binge eating, stress/stress reduction to name a few. These approaches should target women in communities who have limited access to preventive health services, and when appropriate linked to other relevant services to comprehensively address their health needs. Proposals must include women who are members of populations who are disproportionately affected by overweight/obesity in your locale, including racial ethnic minorities.

Specialized Cooperative Centers Program in Reproduction and Infertility Research (U54) Grant

Document Type:	Grants Notice
Funding Opportunity Number:	RFA-HD-08-001
Opportunity Category:	Discretionary
Current Closing Date for Applications:	May 24, 2008
Funding Instrument Type:	Cooperative Agreement
CFDA Number:	93.865 -- Child Health and Human Development Extramural Research
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Small businesses
Private institutions of higher education
Native American tribal organizations (other than Federally recognized tribal governments)
Public housing authorities/Indian housing authorities
Native American tribal governments (Federally recognized)
For profit organizations other than small businesses
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Independent school districts
State governments
County governments
Special district governments
Public and State controlled institutions of higher education

Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education
Others (see text field entitled "Additional Information on Eligibility" for clarification)
City or township governments
Faith-based or community-based organizations can apply.

Description

-The National Institute of Child Health and Human Development (NICHD) provides funding for a limited number of research centers in the reproductive sciences. These centers provide an arena for multidisciplinary interactions among basic and clinical scientists interested in establishing high quality programs in reproduction and infertility research. The centers will also serve as national resources for the training and career development of new scientists electing to pursue research in high priority areas of reproduction and infertility research. The purpose of this RFA is to announce the annual re-competition of the Specialized Cooperative Centers Program in Reproduction Research now called the Specialized Cooperative Centers Program in Reproduction and Infertility Research. The benefit of this activity will be to the infertile couples, their health-care providers, and the public. -The NICHD intends to commit approximately \$6.0 million in total costs [Direct plus Facilities and Administrative (F and A) costs] in FY 2009 to fund up to four new and/or competing continuation grants in response to this RFA. -This RFA will use the NIH Specialized Cooperative Research Center (U54) award mechanism.

Health Resources & Services Administration MCH Distance Learning Modification 3

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	HRSA-08-043
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Dec 07, 2007
Expected Number of Awards:	4
Estimated Total Program Funding:	\$300,000
CFDA Number:	93.110 -- Maternal and Child Health Federal Consolidated Programs
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

As cited in 42 CFR Part 51a.3 (b), only public or nonprofit private institutions of higher learning may apply for training grants. As cited in 42 CFR Part 51a.3 (b), only public or nonprofit private institutions of higher learning may apply for training grants.

Description

This program supports the development, implementation, creative utilization, application and evaluation of distance education opportunities for maternal and child health (MCH) professionals. Consistent with the MCHB Strategic Plan (MCH Training), MCHB is particularly interested in topics such as MCH leadership competencies, cultural competency and family centered care, and best practices in interdisciplinary training. In addition, at least one Distance Learning grant will be targeted towards the translation of new evidence-based knowledge into policy and practice. Projects must provide continuing education to a regional and/or national audience.

Description

-Purpose. This Funding Opportunity Announcement (FOA), issued by the National Institute on Alcohol Abuse and Alcoholism (NIAAA), National Institutes of Health (NIH), encourages Exploratory/Developmental (R21) grant applications from institutions/organizations that utilize innovative approaches to research on: behavioral and pharmacological treatment for alcohol use disorders; organizational, financial, and management factors that facilitate or inhibit the delivery of services for alcohol use disorders; and/or on the phenomenon of recovery from alcohol use disorders. - Mechanism of Support. This FOA will use the NIH Exploratory/Developmental (R21) grant mechanism and runs in parallel with two FOAs of identical scientific scope: PA-07-066 that encourages applications under the R01 mechanism and PA-07-215 that encourages applications under the R03 mechanism. -Funds Available and Anticipated Number of Awards. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications.

Description

Purpose. The Center for Mental Health Research on AIDS at the National Institute of Mental Health supports research Centers that provide Core support for multidisciplinary research programs focused on mental health and HIV/AIDS. The purpose of this Centers Program is to improve and expand research by supporting infrastructure for administrative coordination; subject recruitment, tracking, and retention; quality control and assurance procedures; performing laboratory testing; performing statistical analyses; database management; sponsoring training and education; and scientific and organizational capacity, in order to provide leadership in the integration of multidisciplinary approaches to HIV/AIDS and mental health research, and to expand and develop information-sharing, expertise, technology, and technology transfer in the institutional and clinical communities. The support of this infrastructure will serve to enhance and extend the effectiveness and public health impact of research related to mental health and HIV/AIDS.

Description

-The goal of this FOA is to stimulate the establishment and maintenance of multi-investigator research centers whose mission will be to develop efficient, general, state-of-the-art methodologies for the design, synthesis, analysis, and handling of chemical diversity libraries. The CMLD Centers will continue to feature collaborations and team approaches that otherwise would not be established, including individuals from various sub-disciplines within the field of chemistry and/or from cognate fields, that will develop novel enabling methodologies. The minimum requirements for a CMLD Center will be three research projects, three faculty-level participants (but not necessarily one per project), and a library synthesis core. In order to promote overall diversity within the CMLD initiative, each applicant must propose at least one methods development research project that is of fundamentally organic synthesis. The library synthesis core must provide samples (10-20 mg per compound) to the NIH Molecular Libraries Small Molecule Repository for high-throughput screening by the Molecular Libraries Probe Production Centers Network. -NIGMS intends to commit up to approximately \$10 million in the first year and approximately \$8-9 million in each succeeding year. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size of each award will vary. The total amount awarded and the number of awards will depend upon the quality and costs of the applications received.

Description

-Purpose. This funding opportunity announcement (FOA) solicits R01 grant applications that propose to use novel electrophysiological, molecular, genetic and/or imaging techniques in animals to examine the fundamental mechanisms by which regions in the mature and developing prefrontal cortex interact with other cortical and sub cortical systems to give rise to sophisticated behavior and complex mental function (e.g., cognition, emotion, reward, motivation). This FOA seeks applications employing sophisticated approaches that enable precise spatio-temporal manipulation of circuits to

better understand how the prefrontal cortex influences the function of these brain networks and their development. It is expected that applications will use non-human primates where the anatomical and functional homology of the prefrontal cortex with humans has been relatively well established. The use of rodents to develop novel approaches to manipulate prefrontal circuitry and examine associated complex behaviors will be considered if these techniques have the clear potential for near-term translation to non-human primates. -Mechanism of Support. This Funding Opportunity Announcement (FOA) will utilize the R01 grant mechanism and runs in parallel with an FOA of identical scientific scope, RFA-MH-08-111 that solicits applications under the R21 Exploratory/Development grant mechanism. -Funds Available and Anticipated Number of Awards. The NIMH Intends to commit approximately \$1,000,000 to fund 3-4 grants submitted in response to this and the related FOA MH-08-111. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award will also vary. The total amount awarded and the number of awards will depend upon the mechanism numbers, quality, duration, and costs of the applications received.

Description

Purpose. Biomedical research laboratories increasingly undertake a software development project to solve a problem of interest specifically related to that laboratory. These software packages sometimes become useful to a much broader community of users that can include translational and clinical researchers. The goal of this program announcement is to support the continued development, maintenance, testing and evaluation of existing software. The proposed work should apply best practices and proven methods for software design, construction, and implementation to extend the applicability of existing biomedical informatics/computational biology software to a broader biomedical research community. -Mechanism of Support. This FOA will utilize the NIH Research Project Grant (R01) award mechanism -Funds Available and Anticipated Number of Awards. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award will also vary. The total amount awarded and the number of awards will depend upon number, quality, duration, and costs of the applications received.

Description

Purpose. This funding opportunity announcement (FOA) solicits Exploratory / Developmental (R21) grant applications from applicant organizations that propose exploratory research on research integrity. The purpose of using the R21 exploratory/developmental mechanism is to foster research in areas of study having limited published data to identify clear evidence of problem areas that would benefit from further investigation. Applications must address at least one of the following areas of particular interest to the ORI and NIH: the clarification of community norms and standards, the effectiveness of self-regulation, the societal, organizational, group, or individual factors that affect integrity in research, both positively and negatively, or the impacts of non-adherence to accepted codes of conduct. The proposed project must challenge existing paradigms, be developed around an innovative hypothesis or address critical barriers to progress in understanding the multiple factors that underlie deviation from research integrity. Proposals must have clear relevance to biomedical, behavioral health sciences, or health services research. Applicants are encouraged take into consideration problems or issues that have relevance to the specific interests of ORI or NIH Institutes and Centers. Mechanism of Support: This Funding Opportunity Announcement (FOA) will utilize the NIH Research Project (R21) grant mechanism and runs in parallel with an FOA of identical scientific scope, RFA-RR-07-004, that solicits applications under the Small Grant mechanism (R03). As the applicant(s), you will be responsible for planning, directing, and executing the proposed project. Funds Available and Anticipated Number of Awards. Funding for FY2008 is anticipated to be between \$500,000 and \$700,000 in total costs to support two to three new, meritorious R21 awards. Any individual with the skills, knowledge, and resources necessary to carry out the proposed research may request up to \$275,000 in direct costs for the two year project period. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications. Budget and Project

Period: The total project period for an application submitted in response to this funding opportunity may not exceed two years. Direct costs are limited to \$275,000 over an R21 two-year period, with no more than \$200,000 in direct costs allowed in any single year. Eligible Institutions/Organizations: Public/State Controlled Institution of Higher Education; Private Institution of Higher Education; Nonprofit with 501(c)(3) IRS Status (Other than Institution of Higher Education); Nonprofit without 501(c)(3) IRS Status (Other than Institution of Higher Education); Small Business; For-Profit Organization (Other than Small Business); State Government; U.S. Territory or Possession; Indian/Native American Tribal Government (Federally Recognized); Indian/Native American Tribal Government (Other than Federally Recognized); Indian/Native American Tribally Designated Organization; Non-domestic (non-U.S.) Entity (Foreign Organization); Hispanic-serving Institution; Historically Black Colleges and Universities (HBCUs); Tribally Controlled Colleges and Universities (TCCUs); Alaska Native and Native Hawaiian Serving Institutions; Regional Organization; Faith-based or community based organizations. Eligible Project Directors/Principal Investigators (PDs/PIs): Individuals with the skills, knowledge, and resources necessary to carry out the proposed research are invited to work with their institution to develop an application for support. Individuals from underrepresented racial and ethnic groups as well as individuals with disabilities are always encouraged to apply for NIH support. Number of Applications: Applicants may submit more than one application, provided each application is scientifically distinct. Number of PDs/PIs: More than one PD/PI, or multiple PDs/PIs, may be designated on the application. Renewals and Resubmissions: Competing renewal (formerly competing continuation) applications will not be accepted for the R21 mechanism. Up to two resubmissions (formerly revisions/amendments) of a previously reviewed R21 grant application may be submitted.

Department of Health and Human Services
National Institutes of Health
Research on Research Integrity (R03)
Modification 1

Modified Archive Date based on new Expiration Date.

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	RFA-RR-07-004
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Dec 11, 2007
CFDA Number:	93.389 -- National Center for Research Resources
CFDA Number:	93.395 -- Cancer Treatment Research
CFDA Number:	93.837 -- Heart and Vascular Diseases Research
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Independent school districts
Native American tribal organizations (other than Federally recognized tribal governments)
Small businesses
County governments
City or township governments
Public housing authorities/Indian housing authorities
Others (see text field entitled "Additional Information on Eligibility" for clarification)
Special district governments
Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education
For profit organizations other than small businesses
Public and State controlled institutions of higher education
Private institutions of higher education
Native American tribal governments (Federally recognized)
Faith-based or community-based organizations can apply

Description

Purpose: This funding opportunity announcement (FOA) solicits Small (R03) grant applications from applicant organizations that propose exploratory research on research integrity. The purpose of using the R03 Small Grant mechanism is to encourage studies of limited scope that use widely accepted approaches and methods within established disciplines. By using this mechanism, the Office of Research Integrity (ORI) expects to foster research in areas of study having limited published data to identify clear evidence of problem areas that would benefit from further investigation. Applications must address at least one of the following areas that are of particular interest to the ORI and NIH: the clarification of community norms and standards, the effectiveness of self-regulation, the societal, organizational, group, or individual factors that affect integrity in research, both positively and negatively, or the impacts of non-adherence to accepted codes of conduct. Proposals must have clear relevance to biomedical, behavioral health sciences, or health services research. Applicants are encouraged take into consideration problems or issues that have relevance to the specific interests of ORI or NIH Institutes and Centers.

Mechanism of Support: This Funding Opportunity Announcement (FOA) will utilize the NIH Research Project (R03) grant mechanism and runs in parallel with an FOA of identical scientific scope, RFA-RR-07-003, that solicits applications under the Exploratory/Developmental (R21) mechanism.. As the applicant(s), you will be responsible for planning, directing, and executing the proposed project. Funds Available and Anticipated Number of Awards. Funding for FY2008 is anticipated to be between \$300,000 and \$400,000 in total costs to support two to three new meritorious R03 awards. Any individual with the skills, knowledge, and resources necessary to carry out the proposed research may request up to \$100,000 in direct costs for the two year project period. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications. Budget and Project Period: The total project period for an application submitted in response to this funding opportunity may not exceed two years. Direct costs are limited to \$100,000 over an R03

two-year period, with no more than \$50,000 in direct costs allowed in any single year
Eligible Institutions/Organizations. Public/State Controlled Institution of Higher Education; Private Institution of Higher Education; Nonprofit with 501(c)(3) IRS Status (Other than Institution of Higher Education); Nonprofit without 501(c)(3) IRS Status (Other than Institution of Higher Education); Small Business; For-Profit Organization (Other than Small Business); State Government; U.S. Territory or Possession; Indian/Native American Tribal Government (Federally Recognized); Indian/Native American Tribal Government (Other than Federally; Recognized); Indian/Native American Tribally Designated Organization; Non-domestic (non-U.S.) Entity (Foreign Organization); Hispanic-serving Institution; Historically Black Colleges and Universities (HBCUs); Tribally Controlled Colleges and Universities (TCCUs); Alaska Native and Native Hawaiian Serving Institutions; Regional Organization; Faith-based or community based organizations. Eligible Project Directors/Principal Investigators (PDs/PIs): Individuals with the skills, knowledge, and resources necessary to carry out the proposed research are invited to work with their institution to develop an application for support. Individuals from underrepresented racial and ethnic groups as well as individuals with disabilities are always encouraged to apply for NIH support. Number of Applications: Applicants may submit more than one application, provided each application is scientifically distinct. Application Materials: See Section IV.1 for application materials. Renewals and Resubmissions: Competing renewal (formerly competing continuation) applications will not be accepted for the R03 mechanism. Up to two resubmissions (formerly revisions/amendments) or a previously reviewed small grant application may be submitted. Number of PDs/PIs: More than one PD/PI, or multiple PDs/PIs, may be designated on the application.

Department of Health and Human Services
Health Resources & Services Administration Comprehensive Hemophilia Diagnostic and Treatment Centers Modification 3

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	HRSA-08-029
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Dec 04, 2007
Expected Number of Awards:	12
Estimated Total Program Funding:	\$5,300,000
CFDA Number:	93.110 -- Maternal and Child Health Federal Consolidated Programs
Cost Sharing or Matching Requirement:	No

Eligible Applicants

As cited in 42CFR Part 51 a.3(a) any public or private entity, including an Indian Tribe or Tribal organization (as those terms are defined in 25 U.S.C. 450b), and if otherwise eligible faith-based and community organizations, are eligible to apply for this Federal funding opportunity. As cited in 42CFR Part 51 a.3(a) any public or private entity, including an Indian Tribe or Tribal organization (as those terms are defined in 25 U.S.C. 450b), and if otherwise eligible faith-based and community organizations, are eligible to apply for this Federal funding opportunity.

Description

This program supports the provision of comprehensive care for people with hemophilia and their families through an integrated regional network of centers in the diagnosis and treatment of hemophilia and related bleeding disorders. Grants will be used to promote: (1) maintenance and enhancement of comprehensive care teams to meet the medical, psycho-social, peer support, and genetic counseling needs of individuals and their families, throughout their lifetime including the transition from pediatric to adult care; (2) continued outreach to unserved and under served people with congenital bleeding disorders; and (3) continued collaboration with hemophilia treatment centers within the defined area and promotion of family-centered care within the client population.

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Description

-Purpose. Progress in pharmacologic and behavioral treatments for schizophrenia depends in part on developing new and valid approaches for assessing cognitive dysfunction. Specialized behavioral measures are required to characterize the integrity of specific cognitive mechanisms in persons with schizophrenia. This Funding Opportunity Announcement (FOA) encourages adaptation of measures developed and tested in cognitive science and cognitive neuroscience laboratories for use in clinical assessment. Candidate measures should be selected on the basis of established construct validity and evidence of impaired task performance in schizophrenia, or theoretical relevance to cognitive domains implicated in schizophrenia symptomatology. Methodological issues to be addressed in translational studies involving schizophrenia subjects may include: (1) standardization of task design and administration, (2) evaluation of measurement properties such as internal consistency, test-retest reliability, short-term stability, practice effects, and ceiling/floor effects, and (3) optimization of measures for use in clinical trials. Research projects responding to this FOA are required to test adapted cognitive measures with schizophrenia subjects. -Mechanism of Support. This FOA will utilize the NIH Research Project Grant (R01) award mechanism.

Health Resources & Services Administration Healthy Start Initiative-Eliminating Racial/Ethnic Disparities Modification 1

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	HRSA-08-023
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Dec 06, 2007
Expected Number of Awards:	5

Estimated Total Program Funding:	\$3,425,000
Award Ceiling:	\$685,000
Award Floor:	\$400,000
CFDA Number:	93.926 -- Healthy Start Initiative
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others

Any public or private entity, including an Indian tribe or tribal organization (as defined at 25 U.S.C. 450b) is eligible to apply. Funding would be made available to community-based (and faith-based) projects which have: 1) significant disparities in perinatal indicators which contribute to high infant mortality rates, among one or more subpopulations; 2) an existing active consortia of stakeholders which have underway a perinatal disparity reduction initiative or a plan to establish one; and, 3) a feasible plan to reduce barriers, improve the local perinatal system of care, and work towards eliminating existing disparities in perinatal health. These sites must have or plan to implement/adapt Healthy Start strategies of consortium, case management, and outreach services in a culturally and linguistically sensitive manner. In addition, they must submit documentation of collaboration with the State Title V Agency. Applicants must demonstrate existing/planned collaborations with other key State and local services and resources systems. Such key State and local resources include Title X, Title XIX, Title XXI, WIC, Enterprise Communities/Empowerment Zones, federally funded Community and Migrant Health Centers, federally funded Health Care for the Homeless projects, and Indian/Tribal Health Services. Any public or private entity, including an Indian tribe or tribal organization (as defined at 25 U.S.C. 450b) is eligible to apply. Funding would be made available to community-based (and faith-based) projects which have: 1) significant disparities in perinatal indicators which contribute to high infant mortality rates, among one or more subpopulations; 2) an existing active consortia of stakeholders which have underway a perinatal disparity reduction initiative or a plan to establish one; and, 3) a feasible plan to reduce barriers, improve the local perinatal system of care, and work towards eliminating existing disparities in perinatal health. These sites must have or plan to implement/adapt Healthy Start strategies of consortium, case management, and outreach services in a culturally and linguistically sensitive manner. In addition, they must submit documentation of collaboration with the State Title V Agency. Applicants must demonstrate existing/planned collaborations with other key State and local services and resources systems. Such key State and local resources include Title X, Title XIX, Title XXI, WIC, Enterprise Communities/Empowerment Zone.....

Description

Under this program, grants will be awarded to address significant disparities in perinatal health indicators. Eliminating disparities in Perinatal Health focuses on disparities in Hispanics, American Indians, African Americans, Alaskan Natives, Asian Pacific Islanders, Immigrant Populations or differences occurring by education, income, disability, or living in rural, isolated areas by enhancing a community's service system. Communities must provide a scope of project services that will cover pregnancy and interconceptional phases for women and infants residing in the proposed project area.

Services are to be given to both mother and infant for two years following delivery to promote longer interconceptional periods and prevent relapses of unhealthy risk behaviors.

Description

-The National Institute of Environmental Health Sciences (NIEHS) is announcing the continuation of the Superfund Basic Research and Training Program [referred to as the

Superfund Basic Research Program (SBRP)]. -SBRP grants will support coordinated, multi-project, multi- and interdisciplinary research programs to address the mandates legislated under the Superfund Amendments and Reauthorization Act of 1986. These mandates include the development of 1) methods and technologies to detect hazardous substances in the environment; (2) advanced techniques for the detection, assessment, and evaluation of the effect on human health of hazardous substances; (3) methods to assess the risks to human health presented by hazardous substances; and (4) basic biological, chemical, and physical methods to reduce the amount and toxicity of hazardous substances. -The objective for the SBRP is to develop a holistic research agenda for the protection of human health. This is accomplished by the establishment of interdisciplinary programs that link and integrate biomedical research with related engineering, hydrogeologic, and ecologic components within the context of unique scientific themes developed by the applicant.

Description

Purpose. This Funding Opportunity Announcement (FOA) issued by the National Institute of Child Health and Human Development (NICHD), National Institute on Dental and Craniofacial Research (NIDCR), and the National Institute of Environmental Health Sciences (NIEHS), National Institutes of Health (NIH), encourages innovative investigator-initiated applications designed to study fundamental developmental processes using animal models in conjunction with translational/clinical approaches with the goal of advancing our understanding of the etiology of structural birth defects. In 2000, the Developmental Biology, Genetics and Teratology Branch at NICHD began its Birth Defects Initiative with the funding of a number of research grants and program projects focused on the use of molecular genetic approaches for the study of genetic susceptibility, epidemiology, and developmental biology of human congenital structural malformations. These grants established the basis for a working group of investigators, who meet annually to present research updates, share ideas and technical advances, establish new collaborations, and provide input and advice to NICHD staff. Applicants funded through this FOA will join the NICHD's Birth Defects Special Interest Group and participate in annual meetings designed to provide a forum to discuss research progress, exchange ideas, share resources, and foster collaborations relevant to the goals of the NICHD's Birth Defects Initiative.

Description

-Purpose. This Funding Opportunity Announcement (FOA) issued by the National Human Genome Research Institute, National Institutes of Health, encourages Small Research Grant (R03) applications from institutions/organizations that propose to study the ethical, legal and social implications (ELSI) of human genome research. This announcement is specifically designed to: 1) encourage the development of small, focused research projects by legal, historical, ethics, humanities, social sciences and behavioral scholars; 2) support exploratory studies that may provide preliminary findings or pilot data for larger research proposals; 3) support the secondary analysis of existing data; 4) support the development of new methodologies; and 5) stimulate and facilitate the entry of promising new investigators into ELSI Research. -Mechanism of Support. This FOA will utilize the NIH Small Research Grant (R03) award mechanism and runs in parallel with an FOA of identical scientific scope, PA-08-012, that encourages applications under the Regular Research grant R01 mechanism. -Funds Available and Anticipated Number of Awards. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications.

Description

-Purpose. The purpose of this Funding Opportunity Announcement (FOA) is to support curriculum development to train clinician-scientists who can develop, test, and rapidly translate into practice innovative learning-based treatments in the addictive and mental disorders. The goals in establishing the Programs of Excellence Award are to recognize and enhance current clinical training programs that teach and develop research-based clinical practices and to provide a model for clinician education nationwide. -Mechanism of Support. This FOA will use the NIH Research Education (R25) grant mechanism. - Funds Available and Anticipated Number of Awards. The NIMH intends to commit approximately \$300,000 in FY 2008 to fund up to 8 awards in response to this FOA. The NIDA intends to commit approximately \$200,000 to fund up to 5 awards. NIAAA intends to commit approximately \$100,000 to fund up to 3 awards. OBSSR intends to commit approximately \$50,000. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications.

Description

-Purpose. This Funding Opportunity Announcement (FOA) is a program announcement (PA) issued by the National Institute of Neurological Disorders and Stroke (NINDS), the National Eye Institute (NEI), the National Institute on Aging (NIA), the National Cancer Institute (NCI), and the National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK), National Institutes of Health (NIH). The aim of this FOA is to invite applications to study angiogenesis in the nervous system. Specific areas of research this FOA seeks to encourage include study of the mechanisms controlling angiogenic responses to physiological and pathological stimuli, the development and patterning of nervous system vasculature, and the etiology of disorders affecting development and/or ongoing angiogenesis in nervous system vasculature. -Mechanism of Support. This FOA will utilize the NIH Research Project Grant (R01) award mechanism and runs in parallel

with an FOA of identical scientific scope, PA-08-016, that encourages applications under the NIH Exploratory/Developmental (R21) grant award mechanism. Please note that NIDDK is not participating in the companion R21 FOA. -Funds Available and Anticipated Number of Awards. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications

Award Ceiling:	\$200,000
CFDA Number:	93.242 -- Mental Health Research Grants
CFDA Number:	93.393 -- Cancer Cause and Prevention Research
CFDA Number:	93.853 -- Extramural Research Programs in the Neurosciences and Neurological Disorders
CFDA Number:	93.866 -- Aging Research
CFDA Number:	93.867 -- Vision Research
Cost Sharing or Matching Requirement:	No

Eligible Applicants

County governments
Public and State controlled institutions of higher education
Independent school districts
For profit organizations other than small businesses
Native American tribal organizations (other than Federally recognized tribal governments)
State governments
Special district governments
City or township governments
Native American tribal governments (Federally recognized)
Private institutions of higher education
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education

Public housing authorities/Indian housing authorities
Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education
Small businesses
Others (see text field entitled "Additional Information on Eligibility" for clarification)

Description

-Purpose. This Funding Opportunity Announcement (FOA) is a program announcement (PA) issued by the National Institute of Neurological Disorders and Stroke (NINDS), the National Eye Institute (NEI), the National Institute on Aging (NIA), the National Cancer Institute (NCI), and the National Institute of Mental Health (NIMH), National Institutes of Health (NIH). The aim of this FOA is to invite applications to study angiogenesis in the nervous system. Specific areas of research this FOA seeks to encourage include study of the mechanisms controlling angiogenic responses to physiological and pathological stimuli, the development and patterning of nervous system vasculature, and the etiology of disorders affecting development and/or ongoing angiogenesis in nervous system vasculature. -Mechanism of Support. This FOA will use the NIH Exploratory/Developmental (R21) grant mechanism and runs in parallel with a FOA of identical scientific scope, PA-08-015, that encourages applications under the NIH Research Project Grant (R01) award mechanism. Please note that NIMH is not participating in the companion R01 FOA. -Funds Available and Anticipated Number of Awards. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications.

NIDCD Research Grants for Translating Basic Research into Clinical Tools for Human Health (R01) Grant

Document Type:	Grants Notice
Funding Opportunity Number:	PAR-08-017
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Multiple Receipt Dates - See Link to Full Announcement for details.
CFDA Number:	93.173 -- Research Related to Deafness and Communication Disorders
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education
Private institutions of higher education
Others (see text field entitled "Additional Information on Eligibility" for clarification)
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Public and State controlled institutions of higher education
Small businesses
For profit organizations other than small businesses

Description

-Purpose. The NIDCD is encouraging applications which translate basic research findings into clinical tools for better human health in the NIDCD mission areas of hearing, balance, smell, taste, voice, speech and language. The intent of this Funding Opportunity Announcement (FOA) is to provide a new avenue for basic scientists, clinicians and clinical scientists to jointly initiate and conduct translational research projects. The scope of this FOA includes a range of activities to encourage translation of basic research findings which will impact the diagnosis, treatment and prevention of communication disorders. Multi-institutional, multi-disciplinary, and academic-industrial collaborations studies are encouraged. This FOA is not intended for outcome studies, the extension of ongoing clinical research studies, the optimization of current clinical protocols, or pre-translational studies. -Mechanism of Support. This FOA will utilize the NIH Research Project Grant (R01) award mechanism and runs in parallel with an FOA of identical scientific scope, PAR-08-018 that encourages applications under the Exploratory/Developmental Research Project Grant (R21) mechanism. -Funds Available and Anticipated Number of Awards. This FOA has special receipt dates for five submission cycles. Although there are no funds set-aside for this initiative, applications will be reviewed by an institute special review group. Awards issued under this FOA are contingent upon the availability of funds. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award will also vary. The total amount awarded and the number of awards will depend upon the quality, duration, and costs of the applications received.

Prevention Resource Centers Cooperative Agreement Modification 1

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	HRSA-08-068
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Jan 04, 2008
Funding Instrument Type:	Cooperative Agreement
Expected Number of Awards:	1
Estimated Total Program Funding:	\$420,000
Award Ceiling:	\$400,000
CFDA Number:	93.110 -- Maternal and Child Health Federal Consolidated Programs
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

As cited in Title 42 of the Code of Federal Regulations Part 51a.3 (a), any public or private entity, including an Indian tribe or tribal organization (as those terms are defined at 25 U.S.C. 450b), and if otherwise eligible, faith based and community organizations, are eligible to apply for this federal funding opportunity. As cited in Title 42 of the Code of Federal Regulations Part 51a.3 (a), any public or private entity, including an Indian tribe or tribal organization (as those terms are defined at 25 U.S.C. 450b), and if otherwise eligible, faith based and community organizations, are eligible to apply for this federal funding opportunity.

Description

The purpose of this cooperative agreement is to improve the skills of state and local entities or organizations who work in the child death review process and systems and to promote improved health services delivery, risk reduction and public health and safety focused prevention programs. Specifically, this cooperative agreement will(1) provide technical assistance support to States, particularly State Title V agencies, and communities as they develop, implement and sustain CDR as a community-based process to assess and improve services and systems for children and adolescents;(2) refine the methodology for CDR through continuous assessment of effective use of data of the state of the field, trends and feedback from States and communities; (3)promote collaboration

with other MCH related mortality/morbidity review processes to increase effectiveness and reduce duplication of effort; and, 4) support expanded use of the CDR process in translating data into policy. Policies concerning other adverse events (e.g., morbidity) affecting the maternal and child health population may also be supported.

Private institutions of higher education
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Public and State controlled institutions of higher education

Description

-The Molecular Therapy Core Center Program is designed to provide shared resources to support research to develop and test new molecular therapies for CF and other genetic diseases of interest to NIDDK. Core Centers should enhance the efficiency and foster collaborations within and among institutions with a strong existing base of funded research relevant to gene transfer and gene correction technologies. -The NIDDK intends to commit \$2,000,000 in FY 2008 and \$2,000,000 in FY 2009 to this RFA. -The NIDDK anticipates issuing 4 awards.

CFDA Number:	93.839 -- Blood Diseases and Resources Research
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)
For profit organizations other than small businesses
Public and State controlled institutions of higher education
Small businesses
Private institutions of higher education
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education

Additional Information on Eligibility:

Foreign institutions are not eligible to apply. Eligible agencies of the Federal Government can apply. The sponsoring institution must have staff and facilities available on site to provide a suitable environment for performing high-quality research training. The PhD phase of the program may be conducted outside the sponsoring institution, e.g. a Federal laboratory including the NIH intramural laboratories. This training, however, must be part of a combined MD/PhD program. Foreign Institutions are not eligible to apply.

Description

The National Heart, Lung, and Blood Institute (NHLBI) is interested in supporting individual predoctoral fellowships for combined MD/PhD training in research areas relevant to the mission of the NHLBI. The NHLBI mission is to provide leadership for national programs in diseases of the heart, blood vessels, lung, and blood; blood resources; and sleep disorders. The NHLBI supports research training and career development of new and established researchers in fundamental sciences and clinical disciplines to enable them to conduct basic and clinical research related to heart, vascular, lung, and blood diseases; sleep disorders; and blood resources through individual and institutional research training awards and career development awards. Potential applicants may be interested in viewing the NHLBI Strategic Plan located at <http://apps.nhlbi.nih.gov/strategicplan>. The executive summary is at <http://apps.nhlbi.nih.gov/strategicplan/ExecSummary.pdf>. The strategic plan is intended to provide the NHLBI with a guide for its research and training programs over the next 5 to 10 years. Among the areas of emphasis, but not limited to, in research training are Computational Biology, Bioinformatics, Systems Biology or Network Biology, and Interdisciplinary Research. Applications to the program will be accepted from (a) students currently enrolled in a combined MD/PhD program and (b) current medical or graduate students seeking admission to a combined program that provides research training in areas relevant to the NHLBI mission. Awards to these applicants are contingent on subsequently being enrolled in a combined MD/PhD program. The amount of the award will be determined by the Ruth L. Kirschstein-National Research Service Award (Kirschstein-NRSA) predoctoral award guidelines. The number of awards will depend upon the quality of the applications received, available funds, and programmatic priorities. This Program Announcement uses the Individual Kirschstein-NRSA F30 award mechanism. Eligible organizations include domestic institutions/organizations; for-profit or non-profit organizations; public or private institutions such as universities, colleges, hospital, and laboratories; and eligible agencies of the Federal government including NIH intramural laboratories. Candidates for the Kirschstein-NRSA F30 award must be citizens or non-citizen nationals of the United States, or must have been lawfully admitted to the United States for Permanent Residence. Non-citizen nationals are generally persons born in outlying possessions of the United States, i.e., American Samoa and Swains Island. Individuals on temporary or student visas are not eligible. Individuals may apply for the F30 in advance of admission to the United States as a Permanent Resident recognizing that no award will be made until legal verification of Permanent Resident status is provided. Applicants submitting revised applications must follow the instructions for revised applications in the PHS 416-1 (Rev.10/2005). Up to two revised applications may be submitted.

2008 NIH Director's Pioneer Award Program (DP1) Grant

Document Type:	Grants Notice
Funding Opportunity Number:	RFA-RM-08-013
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Jan 17, 2008
Estimated Total Program Funding:	\$5,000,000
Award Ceiling:	\$500,000
CFDA Number:	93.310 -- Trans-NIH Research Support
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education
Others (see text field entitled "Additional Information on Eligibility" for clarification)
Public housing authorities/Indian housing authorities
Public and State controlled institutions of higher education
State governments
Special district governments
Small businesses
County governments
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Independent school districts
For profit organizations other than small businesses
Native American tribal organizations (other than Federally recognized tribal governments)
City or township governments
Private institutions of higher education
Native American tribal governments (Federally recognized)

Additional Information on Eligibility:

Foreign institutions are not eligible to apply. Eligible agencies of the Federal Government can apply. Faith-based or community-based organizations can apply. Non-domestic (non-U.S.) entities (Foreign Organizations) are not eligible to apply.

Description

The NIH Director's Pioneer Award Program is meant to complement NIH's traditional, investigator-initiated grant programs by supporting individual scientists of exceptional creativity who propose pioneering and possibly transformative approaches to major contemporary challenges that have the potential to produce a major impact in a broad area of biomedical or behavioral research. To be considered pioneering, the proposed research must reflect ideas substantially different from those already being pursued in the investigator's laboratory or elsewhere. Purpose. The National Institutes of Health (NIH) is engaged in a series of initiatives, collectively known as the NIH Roadmap for Medical Research (<http://nihroadmap.nih.gov>) to help enable the agency to sustain its historic

record of making cutting-edge contributions to biomedical and behavioral sciences. The NIH Director's Pioneer Award Program, is a High-Risk Research initiative of Research Teams of the Future. The term pioneering is used to describe highly innovative approaches that have the potential to produce an unusually high impact in a broad area of biomedical and behavioral research, and the term award is used to mean a grant for conducting research, rather than a reward for past achievements. Mechanism of Support. This Funding Opportunity Announcement (FOA) will utilize the DP1 grant mechanism. Funds Available and Anticipated Number of Awards. Total funding available is approximately \$5 million for the five-year period. It is anticipated that at least 5-10 awards will be made in 2008. Budget and Project Period. Awards will be for \$500,000 in direct costs each year for five years. Standard F and A costs will be determined at the time of award. Eligible Institutions/Organizations. The following domestic (U.S.) institutions are eligible to apply: Public/State Controlled Institution of Higher Education; Private Institution of Higher Education; Nonprofit with 501(c)(3) IRS Status (Other than Institution of Higher Education); Nonprofit without 501(c)(3) IRS Status (Other than Institution of Higher Education); Small Business; For-Profit Organization (Other than Small Business); State Government; U.S. Territory or Possession; Indian/Native American Tribal Government (Federally Recognized); Indian/Native American Tribal Government (Other than Federally Recognized); Indian/Native American Tribally Designated Organization; Non-domestic (non-U.S.) Entity (Foreign Organization); Hispanic-serving Institution; Historically Black Colleges and Universities (HBCUs); Tribally Controlled Colleges and Universities (TCCUs); Alaska Native and Native Hawaiian Serving Institutions; Regional Organization; Eligible agencies of the Federal government; Faith-based or community based organizations.) Non-domestic (non U.S.) entities (Foreign Organizations) are not eligible to apply. Eligible Project Directors/Principal Investigators (PDs/Pis): Individuals who meet the eligibility criteria and who possess the skills, knowledge, and resources necessary to carry out the proposed research are invited to work with their institution to develop an application for support. Women and members of groups underrepresented in biomedical or behavioral research are especially encouraged to apply. Investigators at all career levels who are currently engaged in research are eligible to apply. The research proposed need not be in a conventional biomedical or behavioral discipline; if the applicant's experience is in non-biological areas, however, he/she must demonstrate a commitment to exploring topics of biomedical or behavioral relevance. If selected, applicants must show evidence of institutional infrastructure support. Awardees are required to commit the major portion (at least 51%) of their research effort to activities supported by the Pioneer Award. Applicants who were not selected for an award in prior years may submit applications this year. There are no citizenship or residency requirements. Number of Applications. Applicants may submit only one application as a PD/PI in response to this FOA. There is no limit to the number of applications that institutions may submit. Renewals and Resubmissions: Renewal (formerly competing continuation) applications are not allowed. Resubmission (formerly revision or amended) applications are not to be submitted. All Pioneer Award applications will be considered new applications, regardless of any previous applications to the Program

Current Closing Date for Applications:	Dec 10, 2007
Funding Instrument Type:	Cooperative Agreement
Expected Number of Awards:	2
Estimated Total Program Funding:	\$500,000
Award Ceiling:	\$250,000
CFDA Number:	93.942 -- Research, Treatment and Education Programs on Lyme Disease in the United States
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

• Public nonprofit organizations • Private nonprofit organizations • Universities • Colleges • Research institutions • Hospitals • Community-based organizations • Faith-based organizations • Federally recognized or state-recognized American Indian/Alaska Native tribal governments • American Indian/Alaska Native tribally designated organizations • Alaska Native health corporations • Urban Indian health organizations • Tribal epidemiology centers • State and local governments or their Bona Fide Agents (this includes the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau) • Political subdivisions of States (in consultation with States) A Bona Fide Agent is an agency/organization identified by the state as eligible to submit an application under the state eligibility in lieu of a state application. If you are applying as a bona fide agent of a state or local government, you must provide a letter from the state or local government as documentation of your status. Attach this documentation behind the first page of your application form or for electronic applications, use a PDF file and attach as "Other Documents" and label as appropriate.

Description

The participating Centers, Institutes and Offices (CIO)(s) NCZVED intends to commit approximately \$500,000 including both direct and indirect costs in FY2008 to fund one to two applications. The average award amount will be \$250,000 including both direct and indirect costs for the first 12-month budget period. An applicant may request a project

period of up to 3 years. An applicant may request up to \$250,000 in total costs for the first 12-month budget period. The approximate total project period funded amount per award is \$750,000. The anticipated start date for new awards is April 1, 2008.

Public and State controlled institutions of higher education
Others (see text field entitled "Additional Information on Eligibility" for clarification)

Description

-Purpose. This Funding Opportunity Announcement (FOA) issued by the NIDDK, NCI, NHLBI and NIA of National Institutes of Health, solicits Research Project Grant (R01) applications from institutions/organizations for biomedical research that will lead to a better understanding of the pathophysiology and clinical impact of the anemia of inflammation or the anemia of chronic disease (AICD). The outcome of this research should lead towards improved methods of detection, prevention and treatment of this common form of anemia. -Mechanism of Support. This FOA will utilize the NIH Research Project Grant (R01) award mechanism. -Funds Available and Anticipated Number of Awards. NIDDK has set aside \$500,000 in total costs for this initiative in FY2008. If funds are available and there is sufficient interest, this funding opportunity may be announced again in coming years. It is expected that one or two awards will be issued in addition to those meeting regular funding criteria. Awards issued under this FOA are contingent upon the availability of funds and the submission of a sufficient number of meritorious applications. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award will also vary.

Description

-The Organ Systems Branch of the Office of Centers, Training, and Resources, Office of the Director, National Cancer Institute, invites grant applications for Specialized Programs of Research Excellence (SPOREs) in organ-specific cancers. This Funding Opportunity Announcement (FOA) targets applicant institutions with demonstrated ability to conduct translational research in the prevention, etiology, screening, diagnosis, and/or treatment of human cancer. Applications may address cancer in any organ site, but each application must be organ site specific. Examples of organ sites include (but are not limited to) leukemias, lymphomas, myelomas, brain, breast, gastrointestinal (GI) system, genitourinary (GU) system, gynecologic (GYN) system, head and neck, lung, ovary, pancreas, prostate, skin, oral cavity and pharynx, bones, joints, soft tissue, eye and orbit, and endocrine system. Applicants are encouraged to consult with the NCI program staff members regarding the choice of cancer organ site. Translational research, as defined by the NCI, uses knowledge of human biology to develop and test the feasibility of cancer-relevant interventions in humans and/or determines the biological basis for observations made in individuals with cancer or in populations at risk for cancer. -Required components of a SPORE grant application include a minimum of four translational research projects, one or more cores, and developmental research and career development programs. A required core in a SPORE is a human cancer tissue core for the particular organ site that will benefit translational research. -SPOREs are designed to foster extended collaborations in critical areas of research among laboratory and clinical or applied scientists. Every SPORE is expected to have a robust research base in the respective cancer type, good access to patient populations, and substantial commitment from the applicant institution. Inter-SPORE collaborations and collaborations between SPOREs and other NIH programs are strongly encouraged. Each SPORE and the "network" of SPOREs are expected to conduct research that will have the most immediate impact possible on reducing incidence and mortality of human cancer.

Department of Health and Human Services
Agency for Health Care Research and Quality AHRQ Mentored Research Scientist Development Award (K01) Grant

Document Type:	Grants Notice
Funding Opportunity Number:	PAR-08-022

Opportunity Category:	Discretionary
Current Closing Date for Applications:	Jan 08, 2011
CFDA Number:	93.226 -- Research on Healthcare Costs, Quality and Outcomes
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education
Native American tribal organizations (other than Federally recognized tribal governments)
Others (see text field entitled "Additional Information on Eligibility" for clarification)
County governments
State governments
Public housing authorities/Indian housing authorities
Private institutions of higher education
Public and State controlled institutions of higher education
Special district governments
Independent school districts
Native American tribal governments (Federally recognized)
City or township governments

Description

The Agency for Healthcare Research and Quality (AHRQ) announces its interest in supporting the Mentored Research Scientist Development Award (K01) in health services research. The K01 provides specialized study support for research-trained doctorates (e.g., Ph.D., Sc.D., Dr.P.H.) who are committed to a career in health services research and have the potential to develop into independent investigators. The mission of AHRQ is to improve the quality, safety, efficiency, and effectiveness of health care for all Americans. Applications submitted in response to this FOA must be responsive to Agency goals and priorities, as described below. AHRQ will provide salary and fringe benefits for the K01 recipient for a requested percentage of the candidate's institutional salary, of up to \$90,000 annually plus associated fringe benefits. Additionally, up to \$25,000 per year for research development support, as detailed below, will be provided.

Modification 2

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	PA-07-002
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Aug 08, 2008 Multiple Receipt Dates - See Link to Full Announcement for details.
CFDA Number:	93.173 -- Research Related to Deafness and Communication Disorders
CFDA Number:	93.272 -- Alcohol National Research Service Awards for Research Training
CFDA Number:	93.279 -- Drug Abuse and Addiction Research Programs
CFDA Number:	93.282 -- Mental Health National Research Service Awards for Research Training
CFDA Number:	93.286 -- Discovery and Applied Research for Technological Innovations to Improve Human Health
CFDA Number:	93.853 -- Extramural Research Programs in the Neurosciences and Neurological Disorders
CFDA Number:	93.866 -- Aging Research
Cost Sharing or Matching Requirement:	No

Eligible Applicants

For profit organizations other than small businesses
Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Small businesses
Private institutions of higher education
Public and State controlled institutions of higher education
Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Foreign institutions are eligible to apply. Eligible agencies of the Federal Government can apply. The sponsoring institution must have adequate faculty and facilities available on site to provide a suitable environment for performing high-quality research training. Applicants requesting fellowship support for foreign research training must demonstrate in the application that the foreign institution and sponsor offer unique opportunities and clear scientific advantages that are not currently available in the United States. Only if there is a clear scientific advantage will foreign training be supported.

Description

The objective of this funding opportunity announcement is to help ensure that highly trained scientists will be available in adequate numbers and in appropriate research areas to carry out the Nation's biomedical, behavioral, and clinical research agenda. The participating Institutes of the National Institutes of Health (NIH) provide individual predoctoral research training fellowship awards to promising doctoral candidates who have the potential to become productive, independent investigators in research fields relevant to the missions of these participating NIH Institutes and Centers.

Department of Homeland Security

Department of Homeland Security
Preparedness - OG&T
FY 2007 Fire Prevention and Safety Grant Program Modification 1

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	DHS-07-OGT-044-0001
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Nov 30, 2007 Applicants are advised to carefully review the submission requirements contained in the FY 2007 Fire Prevention and Safety Guidance.
Expected Number of Awards:	300
Estimated Total Program Funding:	\$27,000,000
Award Ceiling:	\$1,000,000
Award Floor:	\$0
CFDA Number:	97.044 -- Assistance to Firefighters Grant
Cost Sharing or Matching Requirement:	No

Eligible Applicants

State governments
County governments

Additional Information on Eligibility:

Eligible applicants for the Fire Prevention and Safety Activity include fire departments, and national, regional, state, American Indian and Alaska Native Tribal Governments

local, or community organizations recognized for their experience and expertise in fire prevention and safety programs and activities. These include private and public nonprofit organizations. Eligible applicants for the Firefighter Safety Research and Development Activity include national, regional, state, American Indian and Alaska Native Tribal Governments, local, or community organizations, such as academic, public health, occupational health, and injury prevention institutions, particularly those recognized for experience and expertise in firefighter safety research and development programs or whose applications demonstrate the potential to improve firefighter safety. Private and public nonprofit organizations and non-Federal and non-governmental organizations are also eligible to apply for funding. Fire departments are not eligible to apply for funding under this activity.

Agency Name

Preparedness - OG&T

Description

The purpose of the Fire Prevention and Safety Grants is to fund fire prevention activities and to research and develop improvements to firefighter safety. Fire prevention grants are designed to reach high-risk target groups and mitigate incidences of deaths and injuries caused by fire and related hazards. Fire Prevention and Safety grants are separated into two “activities”. The projects that can be funded are listed below:(1) Fire Prevention and Safety: Applicants can apply for up to three projects. Public education campaigns, Smoke Alarms, Sprinkler Awareness, Code Enforcement/Awareness, Firefighter Safety, Training, Wildfire Prevention /Awareness, Arson Prevention/Awareness, Risk Assessment, General Prevention/Awareness. Applicants requesting Risk Assessments are precluded for applying for additional projects. Fire departments are subject to the same cost-share requirements as under the AFG Grants. (2) Firefighter Safety Research and Development: Applicants can apply for a grant with up to a three year period of performance, but limited to \$1 million per application. For multi-year projects, they can divide the \$1 million over period of performance however they deem necessary. Database/Data Collection and analysis projects/systems, Social Science Studies/Projects and Technology Studies that address injury outcomes or their surrogates such as firefighter safety, wellness, fitness or health

Department of Homeland Security
Preparedness - OG&T - Pre-Disaster Mitigation Grant
Pre-Disaster Mitigation Modification 1

Document Type:

Modification to Previous Grants Notice

Funding Opportunity Number:

DHSFEMA-08-PDM-017-001

Opportunity Category:	Discretionary Jan 31, 2008 Applicants must submit an FY 2008 PDM grant application by January 31, 2008 at 11:59:59 p.m. Eastern Standard Time. Applicants must use the electronic grants (eGrants) management system: https://portal.fema.gov to submit a PDM grant application to include planning, project, and management cost subapplications. Only PDM grant applications submitted through the eGrants system will be accepted. If a subapplicant does not use the eGrants system, the Applicant must enter the subapplicant's paper subapplication(s) into the eGrants system on their behalf using the Paper subapplication Intake function. Paper planning and project subapplications that follow the eGrants format are available in the eGrants system for subapplicants to use. Applicants must provide an original and two copies of any paper supporting documentation that cannot be electronically attached to the eGrants application (e.g., engineering drawings, photos, maps) to the appropriate Regional Office. However, the entire application, including all paper documentation, must be received by the appropriate FEMA Regional office by the application deadline. Paper duplicates of attachments submitted with subapplications in eGrants are not necessary.
Current Closing Date for Applications:	
Category Explanation:	FEMA's Pre-Disaster Mitigation (PDM) program provides funds to States, Territories, Tribes, and communities for hazard mitigation planning and for the implementation of mitigation projects prior to a disaster event. The PDM program provides a significant opportunity to raise risk awareness and reduce the nation's disaster losses through pre-disaster mitigation planning and the implementation of feasible, effective, and cost-effective mitigation measures. The PDM program provides funding to reduce loss of life as well as damage and destruction to property from natural hazards. The Pre-Disaster Mitigation program was authorized by Part 203 of the Robert T. Stafford Disaster Assistance and Emergency Relief Act (Stafford Act), 42 USC 5133, to assist States and communities to implement a sustained pre-disaster natural hazard mitigation program to reduce overall risk to the population and structures, while also reducing reliance on Federal funding from actual disaster declarations. PDM funds must be used primarily to support mitigation activities that address natural hazards, although hazard mitigation projects and plans also may address hazards caused by manmade events.
Expected Number of Awards:	80
Estimated Total Program Funding:	\$100,000,000
Award Ceiling:	\$3,000,000
Award Floor:	\$0

CFDA Number: 97.017 -- Pre-Disaster Mitigation (PDM) Competitive Grants
Cost Sharing or Matching Requirement: Yes

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Applicant Eligibility: Only the State emergency management agencies or a similar office (i.e., the office that has emergency management responsibility) of the State, the District of Columbia, the US Virgin Islands, the Commonwealth of Puerto Rico, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands, as well as Federally-recognized Indian tribal governments are eligible to apply to FEMA for assistance as Applicants under this program. Each State, Territory, or tribal government shall designate one Agency to serve as the Applicant for this program. Each Applicant may submit an unlimited amount of subapplications for eligible planning/ project activities that the Applicant has reviewed and approved in eGrants. A separate management cost subapplication must be submitted for Applicant management costs.

Subapplicant Eligibility: The following entities are eligible to apply to the Applicant for assistance: State-level agencies including State institutions (e.g., State hospital or university); Federally-recognized Indian tribal governments; local governments, including State-recognized tribes, authorized tribal organizations, and Alaska Native villages; public colleges and universities; and tribal colleges and universities. Private non-profit (PNP) organizations and private colleges and universities are not eligible subapplicants; however, an eligible, relevant State agency or local government may apply to the Applicant as the subapplicant for assistance to benefit the private entity.

Description

The PDM program is subject to the availability of appropriation funding, as well as any directive or restriction made with respect to such funds. The PDM program has been reauthorized through September 30, 2008. PDM grants are awarded on a competitive basis. All remaining eligible subapplications will compete nationally for the remaining PDM funds. COST-SHARE: Up to 75% Federal cost share. Small and impoverished communities may be eligible for up to a 90% Federal cost-share.

Department of Homeland Security
Office of Procurement Operations - Grants Division CELL-ALL Ubiquitous Biological and Chemical Sensing Grant

Document Type:	Grants Notice
Funding Opportunity Number:	BAA07-10
Opportunity Category:	Discretionary
Current Closing Date for Applications:	The due dates and times established for the receipt of White Papers and Full Proposals are as indicated in Section IV, Paragraph 3 of the BAA.
Funding Instrument Type:	Cooperative Agreement Grant Other Procurement Contract
Estimated Total Program Funding:	\$3,000,000
CFDA Number:	97.065 -- Homeland Security Advanced Research Projects Agency
Cost Sharing or Matching Requirement:	No

Eligible Applicants

State governments
 County governments
 City or township governments
 Special district governments
 Independent school districts
 Public and State controlled institutions of higher education
 Native American tribal governments (Federally recognized)
 Public housing authorities/Indian housing authorities
 Native American tribal organizations (other than Federally recognized tribal governments)
 Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
 Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education
 Private institutions of higher education
 Individuals
 For profit organizations other than small businesses
 Small businesses
 Others (see text field entitled "Additional Information on Eligibility" for clarification)
 Unrestricted (i.e., open to any type of entity above), subject to any clarification in text field entitled "Additional Information on Eligibility"

Additional Information on Eligibility:

This BAA is open to ALL responsible sources. Offerors may include single entities or teams from private sector organizations, Government laboratories, FFRDCs, including Department of Energy national laboratories and centers, and academic institutions. Federally Funded Research and Development Centers (FFRDCs) are eligible to respond to this BAA individually or as a team member of an eligible principal offeror, as so long

as they are permitted under a sponsoring agreement between the Government and the specific FFRDC. Historically Black Colleges and Universities (HBCU), Minority Institutions (MI), Small Business concerns, Small Disadvantaged Business concerns, Women-Owned Small Business concerns, Veteran-Owned Small Business concerns, Service-Disabled Veteran-Owned Small Business concerns, and Historically Underutilized Business Zone (HUBZone) small business concerns are encouraged to submit proposals. They are also encouraged to join others as team members in submitting proposals. However, no portion of this BAA will be set-aside pursuant to FAR Part 19.502-2.

Description

This is a combined synopsis/solicitation. The BAA is available via the FedBizOpps website (<http://www.fedbizopps.gov/>) and posted on the HSARPA (<http://www.hsarpabaa.com>) website. Please review the document in its entirety, and submit specific inquiries to the BAA email address (BAA07-10@dhs.gov). Today's biological and chemical sensing networks work effectively to cover limited and specific physical areas and environments with significant cost and overhead. In order to greatly expand coverage and realize greater WMD protection for the nation, a revolutionary breakthrough that provides for a much larger and lower cost sensing distributed network is required. Through this BAA, HSARPA is seeking to accelerate advances in miniaturized biological and chemical sensing (e.g. laboratories on a chip) with integration into common device(s) and a communication systems concept for large scale multi-sensor networks. This proof of concept should be capable of detecting hazardous biological and/or chemical materials with eventual expansion to the detection of explosive and eventually radiological materials (in future collaborations with other organizations). In the first year, proposed work should lead to a minimum of a relevant laboratory demonstration of a proof of concept sensor, device and communications system for Cell-All. Optional second year work may be proposed to build upon success in year one and may include additional field experiments and characterizations. DHS S&T is conducting a full-and-open competition (open to ALL responsible sources) via the use of a Broad Agency Announcement (BAA) for the acquisition of basic and applied research and that part of development not related to the development of a specific system or hardware procurement. Under the BAA, awards may be executed as contracts, grants, cooperative agreements or other transactions.

Link to Full Announcement

Please consult the full BAA at [fedbizopps.gov](http://www.fedbizopps.gov) - <http://www.fedbizopps.gov/>

Department of Homeland Security
Preparedness - OG&T
Repetitive Flood Claims Grant and Modification 1

Document Type:
Funding Opportunity Number:

Modification to Previous Grants Notice
DHSFEMA-08-RFC-092-001

Opportunity Category:	Discretionary
Current Closing Date for Applications:	Jan 31, 2008
Category Explanation:	The Repetitive Flood Claims (RFC) grant program provides funding to reduce or eliminate the long-term risk of flood damage to structures insured under the National Flood Insurance Program (NFIP) that have had one or more claim payments for flood damages. The long-term goal of RFC is to reduce or eliminate claims under the NFIP through mitigation activities that are in the best interest of the National Flood Insurance Fund (NFIF).
Expected Number of Awards:	28
Estimated Total Program Funding:	\$10,000,000
Award Ceiling:	\$0
Award Floor:	\$0
CFDA Number:	97.092 -- Repetitive Flood Claims
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

APPLICANT ELIGIBILITY: Only the following entities are eligible to apply to FEMA as Applicants: State emergency management agencies or a similar office of the State (i.e., the office that has primary emergency management or floodplain management responsibility); the District of Columbia; the US Virgin Islands; the Commonwealth of Puerto Rico; American Samoa; the Commonwealth of the Northern Mariana Islands; Guam; and Federally-recognized Indian Tribal governments. Each State, Territory, or Indian Tribal government shall designate one agency to serve as the Applicant for the RFC program. **SUBAPPLICANT ELIGIBILITY:** State-level agencies; Federally-recognized Indian Tribal governments; and local communities (to include State-recognized Indian tribes, authorized Indian Tribal organizations, and Alaska Native villages) are eligible to apply to the Applicant for assistance. Private individuals and Private Non-Profit (PNP) organizations are not eligible subapplicants; however, a relevant State agency or local community may apply to the Applicant for assistance to mitigate private or PNP structures. **REDUCED CAPACITY REQUIREMENT:** RFC funds may only be awarded if the Applicant has certified, either 1) the State and the community are not able to meet the 25% non-Federal match that would otherwise make the activity eligible under the Flood Mitigation Assistance (FMA) program; or 2) the State or community does not have the capacity to manage the activities under the FMA program.

Description

RFC grants are awarded nationally without reference to State allocations, quotas, or other formula-based allocation(s) of funds. The RFC program is subject to the availability of

appropriation funding, as well as any directive or restriction made with respect to such funds. All RFC grants are eligible for up to 100% Federal assistance.

Department of Homeland Security
Preparedness - OG&T
Flood Mitigation Assistance Modification 1

Document Type:

Modification to Previous Grants Notice

Funding Opportunity Number:

DHS-08-FMA-029-001

Opportunity Category:

Discretionary

Current Closing Date for Applications:

Mar 31, 2008 Applicants must submit an FY 2008 FMA grant application by March 31, 2008 at 11:59:59 p.m. Eastern Standard Time. Applicants must use the electronic grants (eGrants) management system: <https://portal.fema.gov> to submit a FMA grant application to include planning, project, and technical assistance subapplications. Only FMA grant applications submitted through the eGrants system will be accepted. If a subapplicant does not use the eGrants system, the Applicant must enter the subapplicant's paper subapplication(s) into the eGrants system on their behalf using the Paper subapplication Intake function. Paper planning and project subapplications that follow the eGrants format are available in the eGrants system for subapplicants to use. Applicants must provide an original and two copies of any paper supporting documentation that cannot be electronically attached to the eGrants application (e.g., engineering drawings, photos, maps) to the appropriate Regional Office. However, the entire application, including all paper documentation, must be received by the appropriate FEMA Regional office by the application deadline. Paper duplicates of attachments submitted with subapplications in eGrants are not necessary. Funds will be returned to FEMA Headquarters if any State/Territory does not submit applications for the full amount of its Target Allocation by March 31, 2008. Eligible Applicants are encouraged to submit applications for funds in excess of their Target Allocation for Project activities, which will then be considered for additional FMA funding.

Category Explanation:

The Flood Mitigation Assistance (FMA) grant program provides funding to States, Federally-recognized Indian

tribal governments, and communities so that cost-effective measures are taken to reduce or eliminate the long-term risk of flood damage to buildings, manufactured homes, and other structures insured under the National Flood Insurance Program (NFIP). The long-term goal of FMA is to reduce or eliminate claims under the NFIP through mitigation activities. Three types of subgrants are available under FMA: Planning, Project, and Technical Assistance.

Expected Number of Awards:	55
Estimated Total Program Funding:	\$34,000,000
Award Ceiling:	\$0
Award Floor:	\$0
CFDA Number:	97.029 -- Flood Mitigation Assistance
Cost Sharing or Matching Requirement:	Yes

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

APPLICANT ELIGIBILITY: Only the following entities are eligible to apply to FEMA as Applicants: State emergency management agencies or a similar office (i.e., the office that has primary emergency management or floodplain management responsibility) of the State; the District of Columbia; the US Virgin Islands; the Commonwealth of Puerto Rico; Guam; American Samoa; the Commonwealth of the Northern Mariana Islands; and Federally-recognized Indian tribal governments. Each State, Territory, or tribal government shall designate one agency to serve as the Applicant for the FMA program.

SUBAPPLICANT ELIGIBILITY: State-level agencies; Federally-recognized Indian tribal governments; and local communities (to include State-recognized Indian tribes, authorized Indian tribal organizations, and Alaska Native villages) are eligible to apply to the Applicant for assistance. Private individuals and private non-profit (PNP) organizations are not eligible subapplicants; however, a relevant State agency or local community may apply to the Applicant for assistance to mitigate private or PNP structures.

Description

The FMA program is subject to the availability of appropriation funding, as well as any directive or restriction made with respect to such funding. FMA funding is available for State allocations for Planning, Project, and Technical Assistance grants. Cost-share: 75% Federal/25% non-Federal. Of this amount, not more than one half may be provided from in-kind contributions.

Institute of Museum and Library Services

Institute of Museum and Library Services National Leadership Grants

Document Type:	Grants Notice
Funding Opportunity Number:	NLG-FY08
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Feb 01, 2008
Award Ceiling:	\$1,000,000
Award Floor:	\$5,000
CFDA Number:	45.312 -- National Leadership Grants
Cost Sharing or Matching Requirement:	Yes

Eligible Applicants

County governments
Public and State controlled institutions of higher education
Private institutions of higher education
State governments
Native American tribal governments (Federally recognized)
City or township governments
Independent school districts
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education

Additional Information on Eligibility:

SEE COMPLETE ELIGIBILITY INFORMATION IN GUIDELINES DOCUMENT.
Eligibility for Libraries An applicant must: • be either a unit of state or local government or a private nonprofit organization that has tax-exempt status under the Internal Revenue Code; • be located in one of the 50 states of the United States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, or the Republic of Palau; and • qualify as one of the six types of organizations listed below: 1. A library or a parent organization, such as a school district, a municipality, a state agency, or an academic institution, that is responsible for the administration of a library. Eligible libraries include public libraries, elementary and secondary school libraries, college and university libraries, research libraries and archives that are not an integral part of an institution of higher education and that make publicly available library services and materials that are suitable for scholarly

research and not otherwise available, and private or special libraries that have been deemed eligible to participate in this program by the state in which the library is located.

2. An academic or administrative unit, such as a graduate school of library and information science, that is part of an institution of higher education through which it would make an application.
3. A digital library, if it makes library materials publicly available and provides library services, including selection, organization, description, reference, and preservation, under the supervision of at least one permanent professional staff librarian.
4. A library agency that is an official agency of a state or other unit of government and is charged by the law governing it with the extension and development of public library services within its jurisdiction.
5. A library consortium that is a local, statewide, regional, interstate, or international cooperative association of library entities that provides for the systematic and effective coordination of the resources of eligible libraries, as defined above, and information centers that work to improve the services delivered to the clientele of these libraries.
6. A library association that exists on a permanent basis, serves libraries or library professionals on a national, regional, state, or local level, and engages in activities designed to advance the well-being of libraries and the library profession.

Eligibility for Museums An applicant must be either a unit of state or local government or a private nonprofit organization that has tax-exempt status under the Internal Revenue Code; be located in one of the 50 states of the United States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, or the Republic of Palau; and qualify as one of the following three types of organizations:

1. A museum that, using a professional staff,
 - is organized on a permanent basis for essentially educational or aesthetic purposes;
 - owns or uses tangible objects, either animate or inanimate;
 - cares for these objects; and
 - exhibits these objects to the general public on a regular basis through facilities that it owns or operates.
2. An organization or association that engages in activities designed to advance the well-being of museums and the museum profession.
3. An institution of higher education, including public and nonprofit universities.

Description

National Leadership Grants support projects that have the potential to elevate museum and library practice. The Institute seeks to advance the ability of museums and libraries to preserve culture, heritage, and knowledge while enhancing learning. Successful proposals will have national impact and generate results—new tools, research, models, services, practices, or alliances—that can be widely adapted or replicated to extend the benefit of federal investment. IMLS seeks to fund projects that have the following characteristics:

- **Strategic Impact**—Proposals should address key needs and challenges that face libraries and museums. They should expand the boundaries within which libraries and museums operate, show the potential for far-reaching impact, and influence practice throughout the museum and/or library communities.
- **Innovation**—Proposals should demonstrate a thorough understanding of current practice and knowledge about the project area and show how the project will advance the state of the art of museum and library service.
- **Collaboration**—While partners are not required in all NLG categories, the Institute has found that involving carefully chosen partners with complementary competencies and resources can create powerful synergies that extend project impact. Proposals should show understanding of the challenges of collaboration and propose means for addressing them. Collaborative planning grants are also available to enable project teams from more than one institution to work together to plan a project for a National Leadership Grant.

Department of the Interior

Department of the Interior
U. S. Fish and Wildlife Service
Region 5 Northeast Region Challenge Cost Share
Modification 1

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	FWS-07-RW-000-001
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Nov 09, 2007
Funding Instrument Type:	Cooperative Agreement Grant

Category Explanation:	The Northeast Region of the National Wildlife Refuge System manages the Challenge Cost Share Grant program for the states of Maine, Vermont, New Hampshire, New York, Pennsylvania, New Jersey, Maryland, West Virginia, Virginia, Massachusetts, Connecticut, Rhode Island, and Delaware. The Northeast Region invites the submission of proposals in support of natural resource management which benefits National Wildlife Refuge System lands and programs, especially those which address invasive species control, habitat restoration and improving visitor services at National Wildlife Refuge System facilities. These proposals are done in partnership with a National Wildlife Refuge. Successful applicants will have at least 50% of project costs covered by non-federal funds. The CCS program is an annual funding source; therefore the objectives identified in the proposals selected for award must be completed no later than September 30, 2008. Proposals must be developed in partnership with a National Wildlife Refuge and submitted by close of business on November 9, 2007 to: Lamar Gore, Assistant Refuge Supervisor-North, USFWS, 300 Westgate Center Drive, Hadley, MA 01035. Please contact Lamar Gore, at 413-253-8542 for further details.
--------------------------	--

Expected Number of Awards:	75
Estimated Total Program Funding:	\$500,000
Award Ceiling:	\$25,000
Award Floor:	\$500
Cost Sharing or Matching Requirement:	Yes

Eligible Applicants

Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
County governments
Native American tribal organizations (other than Federally recognized tribal governments)
Independent school districts
Native American tribal governments (Federally recognized)
For profit organizations other than small businesses
Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education
Individuals
City or township governments

EXAMPLES OF FUNDED PROJECTS:

A wide variety of projects focusing on conservation, protection, and enhancement of fish, wildlife and plants involving **partners** who provide a 1:1 match.

CRITERIA FOR SELECTING PROPOSALS:

Proposals are evaluated on the lasting affect on conservation, enhancement and protection. They will also be evaluated on scope of effect, number of **partners** involved, importance of resource values, feasibility, and cost effectiveness.

United States Department of Justice

United States Department of Justice
Office of Justice Programs
National Institute of Justice
NIJ FY08 Personal Protective Equipment Concept Paper Solicitation Grant

Document Type:	Grants Notice
Funding Opportunity Number:	2008-NIJ-1708
Opportunity Category:	Discretionary
Funding Instrument Type:	Cooperative Agreement
CFDA Number:	16.560 -- National Institute of Justice Research, Evaluation, and Development Project Grants
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Unrestricted (i.e., open to any type of entity above), subject to any clarification in text field entitled "Additional Information on Eligibility"

Description

The National Institute of Justice (NIJ) is the research, development, and evaluation agency of the U.S. Department of Justice and a component of the Office of Justice Programs (OJP). NIJ provides objective, independent, evidence-based knowledge and tools to enhance the administration of justice and public safety. NIJ solicits proposals to inform its search for the knowledge and tools to guide policy and practice. NIJ is seeking applications for funding to research, develop, and demonstrate technologies that will enhance the safety of law enforcement officers and other criminal justice practitioners. Specific areas of interest include: 1. Improved protective uniforms for motorcycle officers. 2. Officer-deployable traffic control devices. 3. Less toxic materials for latent fingerprint identification/examination. 4. Assessment of long-term workplace exposure to hazardous materials. 5. Traffic-light-mounted sensors to warn motorists of approaching emergency vehicles. 6. Decontamination of service weapons following pathogen exposure.

United States Department of Justice
Office of Justice Programs
Bureau of Justice Assistance
Gang Resistance Education and Training (G.R.E.A.T.) Program Modification 4

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	BJA-2008-1712
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Dec 13, 2007
Award Ceiling:	\$150,000
CFDA Number:	16.737 -- Gang Resistance Education and Training
Cost Sharing or Matching Requirement:	Yes

Eligible Applicants

Special district governments
Public and State controlled institutions of higher education
Public housing authorities/Indian housing authorities
Native American tribal governments (Federally recognized)

Independent school districts
County governments
State governments
City or township governments

Additional Information on Eligibility:

Any state, local, or tribal jurisdiction or law enforcement agency (including school police, housing authority police, prosecution, probation, and parole agencies possessing the power of arrest) with an active G.R.E.A.T. Program, or committed to starting a G.R.E.A.T. Program, in cooperation with a local education agency, is eligible to apply for funding.

Description

The Gang Resistance Education And Training (G.R.E.A.T.) Program (42 U.S.C. § 13921) is a school-based, law enforcement officer-instructed classroom curriculum administered by the Office of Justice Programs' Bureau of Justice Assistance (BJA) in cooperation with the Department of Justice's (DOJ's) Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF). The program's primary objective is prevention and is intended as an immunization against delinquency, youth violence, and gang membership. G.R.E.A.T. lessons focus on providing life skills to students to help them avoid engaging in delinquent behavior and violence to solve problems. Criminal justice professionals with powers of arrest—police officers, sheriff's deputies, parole or probation officers, school police officers, federal law enforcement officers/agents, prosecutors, judges, court officials, district attorneys—are eligible to teach G.R.E.A.T. All individuals wishing to deliver the program in the classroom must complete a G.R.E.A.T. Officer Training Course. Per the National G.R.E.A.T. Program Policies and Guidelines, G.R.E.A.T. officers are responsible for maintaining their G.R.E.A.T. certification. G.R.E.A.T. funds may be used to support one or more of the following G.R.E.A.T. curricula, components, and activities: 13-week middle school curriculum (a core, mandatory component); 6-week elementary (4th and 5th grades) curriculum; 6-lesson G.R.E.A.T. families component; or G.R.E.A.T. summer component.

United States Department of Justice
Office of Justice Programs
Bureau of Justice Assistance
Capital Case Litigation Initiative Modification 4

Document Type: Modification to Previous Grants Notice
Funding Opportunity Number: BJA-2008-1715

Opportunity Category:	Discretionary
Current Closing Date for Applications:	Jan 03, 2008
Award Ceiling:	\$50,000
Award Floor:	\$0
CFDA Number:	16.746 -- Capital Case Litigation
Cost Sharing or Matching Requirement:	No

Eligible Applicants

State governments
City or township governments
County governments
Native American tribal governments (Federally recognized)

Description

The purpose of CCLI is to provide high-quality training and technical assistance on death penalty issues to attorneys and judges who litigate death penalty cases. The goals of this initiative are to: 1) increase the number of capital litigation attorneys trained in capital case procedures and strategies; and 2) ensure that defense counsel, prosecutors, and judges have the most up-to-date and comprehensive information available to aid them in death penalty litigation. BJA is seeking applications from state-based agencies and organizations that serve defense counsel, prosecutors, or judges to deliver the newly developed training. CCLI grants will serve as seed money to help create opportunities for states to begin the initiative with federal money and sustain it with state funding. Priority will be given to states that currently enforce their death penalty statutes.

National Aeronautics and Space Administration

National Aeronautics and Space Administration NASA Headquarters ROSES 2007: Terrestrial Hydrology Grant

Document Type:	Grants Notice
Funding Opportunity Number:	NNH07ZDA001N-THP
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Jan 15, 2008
Funding Instrument Type:	Grant Cooperative Agreement

CFDA Number: 00.000 -- Not Elsewhere Classified
Cost Sharing or Matching Requirement: No

Eligible Applicants

Unrestricted

Description

NNH07ZDA001N, entitled "Research Opportunities in Space and Earth Sciences - 2007 (ROSES-2007)," will be available on or about February 16, 2007, by opening the NASA Research Opportunities homepage at <http://nspires.nasaprs.com/> and then linking through the menu listings "Solicitations" to "Open Solicitations." This NASA Research Announcement (NRA) solicits proposals for supporting basic and applied research and technology across a broad range of Earth and space science program elements relevant to one or more of the following NASA Research Programs: Earth Science, Heliophysics, Planetary Science, and Astrophysics. Proposal due dates are scheduled starting on May 1, 2007, and continue through April 11, 2008. Electronically submitted Notices of Intent to propose are requested for all program elements, with the first such due date being March 15, 2007. Electronic submission of proposals is required by the respective due dates for each program element, and must be submitted by an authorized official of the proposing organization. Participation is open to all categories of organizations, foreign and domestic, including educational institutions, industry, nonprofit organizations, NASA centers, the Jet Propulsion Laboratory, and other Government agencies' Electronic proposals may be submitted via the NASA proposal data system NSPIRES or via Grants.gov. Every organization that intends to submit a proposal in response to this NRA must be registered with NSPIRES, and organizations that intend to submit proposals via Grants.gov must be registered with Grants.gov. Such registration must identify the authorized organizational representative(s) who will submit the electronic proposal. All principal investigators and other participants (e.g. co-investigators) must be registered in NSPIRES. Potential proposers and proposing organizations are urged to access the system(s) well in advance of the proposal due date(s) of interest to familiarize themselves with its structure and enter the requested information. Further information about specific program elements may be obtained from the individual Program Officers listed in the Summary of Key Information for each program element in this NRA, while questions concerning general NRA policies and procedures may be directed to Dr. Paul Hertz, Science Policy, Process, and Ethics Chief, Science Mission Directorate, NASA Headquarters, Washington, DC 20546-0001; E-mail: paul.hertz@nasa.gov; Telephone: 202-358-0986. This is a broad agency announcement as specified in FAR 6.102 (d) (2). Notwithstanding the posting of this opportunity at FedBizOpps.gov, Grants.gov, or at both sites, NASA reserves the right to determine the appropriate award instrument for each proposal selected pursuant to this announcement.

National Endowment for the Arts

National Endowment for the Arts

NEA Literature Fellowships: Translations Projects, FY2009 Grant

Document Type:	Grants Notice
Funding Opportunity Number:	2008NEA03LFTP
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Jan 07, 2008 Applicants must submit their applications electronically through Grants.gov, the federal government's online application system. The Grants.gov system must receive your application no later than 11:59 p.m., Eastern Time, on January 7, 2008. The Arts Endowment will not accept late applications.
Award Ceiling:	\$20,000
Award Floor:	\$10,000
CFDA Number:	45.024 -- Promotion of the Arts Grants to Organizations and Individuals
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Individuals

Additional Information on Eligibility:

Individual translators who meet the publication requirements that are listed below are eligible to apply. Applicants must be citizens or permanent residents of the United States. You are eligible to apply if you, alone or in collaboration, have: •Published a total of at least 20 pages of translations of creative literature into English in literary magazines, anthologies, or books; or •Published a translation into English of a novel or a volume of at least 20 pages of fiction, poetry, or belles-lettres (creative nonfiction, criticism, and essays); or •Translated into English at least one full-length play that has been produced by a professional theater company. This publication or production must have taken place between January 1, 1993, and January 7, 2008.

Description

Through fellowships to exceptionally talented, published translators, the Arts Endowment supports projects for the translation of specific works of prose, poetry, or drama from other languages into English. We encourage translations of writers and of work which are not well represented in English translation. All proposed projects must be for creative translations of published literary material into English. The work to be translated should be of interest for its literary excellence and value. Priority will be given to projects that involve work that has not yet been translated into English.

National Endowment for the Humanities

National Endowment for the Humanities
Interpreting America's Historic Places Planning Grants

Document Type:	Grants Notice
Funding Opportunity Number:	20080123-BP
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Jan 23, 2008
Award Ceiling:	\$75,000
Award Floor:	\$0
CFDA Number:	45.164 -- Promotion of the Humanities Public Programs
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Native American tribal governments (Federally recognized)
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Public and State controlled institutions of higher education
County governments
Private institutions of higher education
Independent school districts
City or township governments

Description

As part of the NEH's We the People program, Interpreting America's Historic Places grants support public humanities projects that exploit the evocative power of historic places to address themes and issues central to American history and culture, including those that advance knowledge of how the founding principles of the United States have shaped American history and culture for more than two hundred years. Interpreting America's Historic Places planning grants support planning that leads to the interpretation of a single historic site or house, a series of sites, an entire neighborhood, a town or community, or a larger geographical region. The place taken as a whole must be significant to American history, and the project must convey its historic importance to visitors. The audience for Interpreting America's Historic Places projects is the general public. (For other public humanities projects that may not focus so closely on historic places, refer to the planning grant guidelines for America's Historical and Cultural

Organizations.) The goals of Interpreting America's Historic Places grants are to: enhance lifelong learning in American history by connecting nationally significant events, people, ideas, stories, and traditions with specific places; foster the development of interpretive programs for the public that address central events, themes, and issues in American history; and encourage consultation with humanities scholars and history organizations in the development of heritage tourism destinations.

National Endowment for the Humanities
America's Historical and Cultural Organizations Planning Grants Grant

Document Type:	Grants Notice
Funding Opportunity Number:	20080123-GE
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Jan 23, 2008
Expected Number of Awards:	20
Award Ceiling:	\$75,000
Award Floor:	\$0
CFDA Number:	45.164 -- Promotion of the Humanities Public Programs
Cost Sharing or Matching Requirement:	No

Eligible Applicants

County governments
Independent school districts
Private institutions of higher education
City or township governments
Public and State controlled institutions of higher education
Native American tribal governments (Federally recognized)
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education

Description

America's Historical and Cultural Organizations grants support traveling or long-term museum exhibitions, library-based projects, interpretation of historic places or areas,

interpretive Web sites, or other project formats that creatively engage audiences in exploring humanities ideas and questions. Planning grants can be used to plan, refine, and develop the content and interpretive approach of a project. Applicants should have already conducted preliminary consultation with scholars to help shape the humanities content of the project and with other programming advisers appropriate to the project's format. Applications for panel exhibitions are accepted only from organizations other than museums, such as libraries or library systems. Panel exhibitions must travel beyond a single site and must also incorporate at least one other program format. Applications that make innovative use of emerging technologies are encouraged. Projects should do more than simply provide a digital archive of material. They should offer new ways of contextualizing and interpreting information that engages public audiences interactively in exploring humanities ideas and questions. Applications may, for example, include plans to create Web sites, PDA tours and resources, podcasts, virtual environments, wiki formats or others that utilize user-generated content, virtual imaging, GIS mapping, online scholar-led discussions, video on demand, streaming video, games, or other digital components. Digital components should rest on sound humanities scholarship and enhance the project's humanities content for the general public in ways that take unique advantage of the chosen technology. Support is also available to expand previously-funded NEH projects through the addition of new, complementary formats, for example, developing a series of reading and discussion programs around an exhibition or film or using digital formats to add new interpretive dimensions to a project. The new formats should complement and expand the project's original humanities content in unique ways and should reach audiences that were not served by the original project. The program also supports Chairman's Special Award projects. These are more complex projects of national visibility that would be of compelling interest to the general public, show exceptional promise of dealing with important humanities ideas in new ways, and reach large audiences. These goals can be accomplished through combining a variety of program formats, forming creative collaborations among diverse institutions, and expanding of the scope and reach of the project.

National Science Foundation

National Science Foundation
Discovery Research K-12 Grant

Document Type:	Grants Notice
Funding Opportunity Number:	08-502
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Jan 28, 2008 Full Proposal Deadline(s): January 28, 2008 January 19, 2009
Funding Instrument Type:	Cooperative Agreement
Expected Number of Awards:	66
Estimated Total Program Funding:	\$50,000,000
CFDA Number:	47.076 -- Education and Human Resources
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Unrestricted

Description

The Discovery Research K-12 (DR-K12) program seeks to enable significant advances in K-12 student and teacher learning of the STEM disciplines through research about, and development and implementation of, innovative resources, models, and technologies for use by students, teachers, and policy makers. Activities funded under this solicitation begin with a research question or hypothesis about K-12 STEM learning or teaching; develop, adapt, or study innovative resources, models, or technologies; and demonstrate if, how, for whom, and why their implementation affects learning. This solicitation calls for proposals that are responsive to either the Contextual Challenges strand or the Frontier Challenges strand. The former invites proposals that address the more immediate and pressing challenges facing K-12 STEM education at the national level. The latter anticipates opportunities for the future and supports initiatives on the frontiers of knowledge which challenge existing assumptions about learning and teaching within or across STEM fields, envision needs of learners in 10 to 15 years, and consider new and innovative ways to reach learners. Within these strands, the program calls for full research and development projects, exploratory projects, and synthesis projects. A DR-K12 Resource Network will be funded to support these efforts in FY 2008. In addition, conferences related to the mission of the DR-K12 program are also supported.

Description

The Pan American Advanced Study Institutes (PASI) Program, is a jointly supported initiative between the Department of Energy (DOE) and the National Science Foundation (NSF). Pan American Advanced Studies Institutes are short courses ranging in length from ten days to one month duration, involving lectures, demonstrations, research seminars and discussions at the advanced graduate and post-doctoral level. PASIs aim to disseminate advanced scientific and engineering knowledge and stimulate training and cooperation among researchers of the Americas in the mathematical, physical, and biological sciences, and in engineering fields. Whenever feasible, an interdisciplinary approach is recommended.

Others

For Mid-Career Research Fellowship proposals: Any qualified researcher may submit a proposal through normal institutional channels at either the home or host organization. To be qualified, the researcher must be employed at a U.S. organization and must have earned a Ph.D. or equivalent degree in the social, behavioral, economic, or statistical sciences. Although applications may be submitted from researchers at any level beyond the Ph.D., NSF especially encourages the submission of proposals from senior (post-tenure) researchers. An applicant may receive only one mid-career fellowship award under this program or its successors. For Doctoral Dissertation Research proposals: The proposal must be submitted by a U.S. university on behalf of the dissertation advisor and graduate student who is at the point of initiating or already conducting dissertation research. The advisor serves as the principal investigator and the student as the co-principal investigator. The student must be enrolled at a U.S. institution but need not be a U.S. citizen. For all other proposals: The categories of proposers identified in the Grant Proposal Guide are eligible to submit proposals under this program solicitation.

Description

The Methodology, Measurement, and Statistics (MMS) Program is an interdisciplinary program that supports the development of innovative methods and models for the social and behavioral sciences. The MMS Program interacts with the other programs in the Directorate for Social, Behavioral, and Economic Sciences (SBE), as well as other programs in the Foundation, most notably the Statistics and Probability Program in the Directorate for Mathematical and Physical Sciences (MPS). In general, MMS seeks proposals that are interdisciplinary in nature, methodologically innovative, and grounded in theory. The MMS Program welcomes proposals in the following areas: general research and infrastructure activities; mid-career research fellowships; research on survey and statistical methodology; and doctoral dissertation research.

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

*Organization Limit: Proposals may only be submitted by the following: --US colleges, universities and organizations of higher education located in the US, its territories and possessions. --US independent research museums located in the US, its territories and possessions. --US independent nonprofit research organizations located in the US, its territories and possessions, including consortia whose members consist only of organizations described in items (1) and (2). (Requests for instrumentation that will be

located at a Federally Funded Research and Development Center (FFRDC) must be submitted as consortium proposals. This is the only mechanism by which instrumentation, whether purchased or developed, can be placed at an FFRDC.) --US small businesses located in the US, its territories and possessions are eligible for instrument development support as private sector partners with submitting organizations; they may not submit proposals as a lead organization. Organizations that are eligible to submit proposals to NSF's MRI Program are divided into three categories: Ph.D. granting organizations, non-Ph.D. granting organizations, and non-degree granting organizations. --Ph.D. granting organizations are academic organizations that have produced more than 20 Ph.D.s or D.Sci.'s in all NSF-supported fields of science, mathematics or engineering during the previous two academic years (please review NSF's Guide to Programs for NSF supported fields of science, mathematics and engineering: http://www.nsf.gov/funding/browse_all_funding.jsp. --Non-Ph.D. granting organizations are two- and four- year colleges and universities that have produced 20 or fewer Ph.D.s or D.Sci.'s in all NSF-supported fields of science, mathematics, and engineering during the previous two academic years. --Non-degree granting organizations are independent nonprofit research organizations, research museums, and consortia of eligible organizations.

Description

The Major Research Instrumentation Program (MRI) is designed to increase access to scientific and engineering equipment for research and research training in our Nation's organizations of higher education, research museums, and non-profit research organizations. This program seeks to improve the quality and expand the scope of research and research training in science and engineering, and to foster the integration of research and education by providing instrumentation for research-intensive learning environments. The MRI program encourages the development and acquisition of research instrumentation for shared inter- and/or intra-organizational use and in concert with private sector partners. The MRI program assists in the acquisition or development of major research instrumentation that is, in general, too costly for support through other NSF programs. For proposals over \$2 million, requests must be for the acquisition of a single instrument. For proposals requesting \$2 million or less, investigators may seek support for instrument development or for acquisition of a single instrument, a large system of instruments, or multiple instruments that share a common or specific research focus.

National Science Foundation
Chemistry Research Instrumentation and Facilities Grant

Document Type:	Grants Notice
Funding Opportunity Number:	08-504

Opportunity Category:	Discretionary
Current Closing Date for Applications:	Feb 01, 2008 Full Proposal Deadline(s): February 01, 2008
Expected Number of Awards:	6
Estimated Total Program Funding:	\$4,000,000
CFDA Number:	47.049 -- Mathematical and Physical Sciences
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

*Organization Limit: Proposals may only be submitted by the following: -Only academic institutions or non-profit research organizations in the U.S. and U.S. territories may submit proposals. *PI Limit: The principal investigator must be affiliated with an academic institution or non-profit research organization in the U.S. and U.S. territories. Other investigators may be affiliated with U.S. academic institutions, non-profit research organizations, industry, government laboratories, or international institutions. No CRIF:CRF award funds may go directly to industry, government laboratories or international institutions.

Description

The Division of Chemistry of the National Science Foundation (NSF), under the umbrella of the Chemistry Research Instrumentation and Facilities Program (CRIF), has provided support to research institutions and consortia for the establishment of regional or national instrumentation facilities, the purchase of departmental research instrumentation, and the development of state-of-the-art equipment. In FY05, the instrumentation facilities component of the CRIF Program was expanded to address the growing importance of cyber-enabled chemistry in the research endeavor. Preference will be given to cyber-enabled chemistry proposals that are distinct from the projects represented by the FY05 and FY06 awards (CHE-0535542; CHE-0535640; CHE-0535656; CHE-0535710; CHE-0625419; CHE-0626111; CHE-0626305; CHE-0626354). The Chemistry Research Instrumentation and Facilities: Cyberinfrastructure and Research Facilities (CRIF:CRF) Program provides funding to build a foundation for cyber-enabled chemical research and education, and to establish and support multi-user instrumentation research facilities with unique capabilities in the chemical sciences. This is structured to enable NSF, through its Division of Chemistry, to respond to a variety of needs for infrastructure to support basic research and education in chemistry.

National Science Foundation
High Performance Computing System Acquisition: Towards a Petascale Computing Environment
for Science and Engineering Modification 3

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	05-625
Opportunity Category:	Discretionary
Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	05-625
Opportunity Category:	Discretionary
Funding Instrument Type:	Cooperative Agreement
Expected Number of Awards:	2
Estimated Total Program Funding:	\$30,000,000
Award Ceiling:	\$30,000,000
Award Floor:	\$15,000,000
CFDA Number:	47.070 -- Computer and Information Science and Engineering
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Unrestricted (i.e., open to any type of entity above), subject to any clarification in text field entitled "Additional Information on Eligibility"

Description

NSF's five-year goal for high performance computing (HPC) is to enable petascale science and engineering through the deployment and support of a world-class HPC environment comprising the most capable combination of HPC assets available to the academic community. By the year 2010, the petascale HPC environment will enable investigations of computationally challenging problems that require computing systems capable of delivering sustained performance approaching 10¹⁵ floating point operations per second (petaflops) on real applications, that consume large amounts of memory, and/or that work with very large data sets. Among other things, researchers will be able to perform simulations that are intrinsically multi-scale or that involve the simultaneous interaction of multiple processes. HPC Resource Providers - those organizations willing to acquire, deploy and operate HPC systems in service to the broad science and engineering research and education community - play a key role in the provision and support of a national HPC environment. With this solicitation, NSF requests proposals from organizations willing to serve as HPC Resource Providers, and who propose to acquire and deploy a new, and/or upgrade an existing, HPC system. Competitive HPC systems will: 1) Enable researchers to work on a range of computationally-challenging science and engineering applications; 2) Incorporate reliable, robust system software essential to optimal sustained performance; and 3) Provide a high degree of stability and

usability. A robust and effective HPC acquisition process, driven by the requirements of the science and engineering research and education community, is one of the key elements of NSF's HPC strategy. System performance on an appropriate set of benchmarks will thus be a key factor in system selection. These benchmarks will be designed to capture the salient attributes of those science and engineering applications placing the most stringent demands on the systems to be provisioned. The performance requirements and benchmarks for this competition are posted on the NSF website at <http://www.nsf.gov/div/index.jsp?div=OCI>. Up to two awards will be made as a result of this competition.

National Science Foundation
Systematic Biology and Biodiversity Inventories Modification 3

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	PD-04-7374
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Jan 09, 2008 Full Proposal Target Date: January 09, 2008 and annually on January 9 thereafter Full Proposal Target Date: July 09, 2008 and annually on July 9 thereafter
CFDA Number:	47.074 -- Biological Sciences
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Unrestricted (i.e., open to any type of entity above), subject to any clarification in text field entitled "Additional Information on Eligibility"

Description

Systematic Biology and Biodiversity Inventories Cluster: Supports the general science of systematics, whose three main missions are: to discover, describe, and inventory global species diversity; to analyze and synthesize the information derived from this global discovery effort into predictive classification systems that reflect the history of life; and to organize the information derived from this global program in efficiently retrievable forms that best meet the needs of science and society. The Cluster manages review panels each fall and spring, which include the review of Revisionary Systematics (REVSYS) proposals; as well as special competitions for Partnerships for Enhancing Expertise in Taxonomy (PEET) and Planetary Biodiversity Inventories (PBI), which rotate biennially. The Cluster also works in conjunction with Emerging Frontiers (EF) on the

Assembling the Tree of Life (AToL) program. Supplementary grants for existing awards and other opportunities for funding are offered by the Cluster: see Supplements & Other Opportunities for more information. Systematic Biology: Supports the scientific study of biological species diversity, and encompasses taxonomy, classification, and phylogenetics, for all groups of organisms and for all habitats on Earth, including marine environments. Activities include the discovery and description of species, the organization of taxonomic information into hierarchical predictive classifications associated with efficient, reliable identification keys, and the analysis of evolutionary relationships among groups of species and across the tree of life. Biodiversity Surveys and Inventories: Supports expeditionary work to discover, describe, and document plant, animal, and microbial diversity throughout the world, whether terrestrial, freshwater, or marine, and with emphasis on well-vouchered natural history collections, or stocks and cultures including associated databases. Supported surveys may be primarily area-based (i.e., focusing on species inventory and discovery, including biogeographic or evolutionary hypothesis testing), clade-based (i.e., continental-scale to global species inventory for a particular taxonomic group), or guild-based (i.e., surveys that couple species inventory and discovery with ecological hypothesis testing). Revisionary Synthesis in Systematics (REVSYS): Seeks to revitalize revisionary and monographic research on species so that it fully utilizes modern information technology at all stages of the taxonomic enterprise from data capture and analysis to electronic dissemination of results. Each proposal must bring together all specimens available of a particular group of organisms in order to compare the distribution of spatial and temporal attributes of these specimens, distinguish populations of different species, determine relationships among the species, and establish highly predictive classifications that allow generalizations from the known attributes. Partnership for Enhancing Expertise in Taxonomy (PEET): Biennial special competition to address three biodiversity-related goals: monographic research on poorly known groups of organisms; training of at least two new taxonomic experts; and web-based bioinformatics for taxonomic resources. The deadline in March of odd-numbered years precedes panel review in late spring. Planetary Biodiversity Inventories (PBI): Biennial special competition to accelerate the discovery and study of the world's biodiversity. Proposals are invited from teams of investigators to conduct a worldwide, species-level systematic inventory of a major group of organisms. Each project should conduct fieldwork necessary to fill gaps in existing collections, produce descriptions, taxonomic revisions, web-searchable databases, and interactive keys (or other automated identification tools) for all new and known species in the targeted group, analyze their phylogenetic relationships, and establish predictive classifications for the group. Proposals may target any particular group of organisms, from terrestrial, freshwater, or marine habitats, at any feasible level in the taxonomic hierarchy,

Department of State

Department of State
Bureau Of Educational and Cultural Affairs The Future Leaders Exchange Program: Host Family
and School Placement Grant

Document Type:	Grants Notice
Funding Opportunity Number:	ECA-PE-C-PY-08-10
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Dec 14, 2007
Expected Number of Awards:	15
Estimated Total Program Funding:	\$7,150,000
Award Floor:	\$195,000
CFDA Number:	00.000 -- Not Elsewhere Classified
Cost Sharing or Matching Requirement:	Yes

Eligible Applicants

Public and State controlled institutions of higher education
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher
education
Private institutions of higher education
Others (see text field entitled "Additional Information on Eligibility" for clarification)

Description

The Youth Programs Division of the Bureau of Educational and Cultural Affairs announces an open competition for the placement component of the Future Leaders Exchange (FLEX) program. Public and private non-profit organizations meeting the provisions described in Internal Revenue Code section 26 USC 501(c)(3) may submit proposals to recruit and select host families and schools for high school students between the ages of 15 and 17 from countries of the former Soviet Union, hereafter referred to as Eurasia. This solicitation and the activities to which it refers, applies only to FLEX students from the following Eurasian countries: Armenia, Azerbaijan, Georgia, Kazakhstan, Kyrgyzstan, Moldova, Russia, Tajikistan,

Additional Information on Eligibility:

Please see full announcement.

Description

The Office of Citizen Exchanges of the Bureau of Educational and Cultural Affairs announces an open competition for the International Sports Programming Initiative. Public and private non-profit organizations meeting the provisions described in Internal Revenue Code section 26 U.S.C. 501(c)(3) may submit proposals for projects designed to enhance and improve the infrastructure of youth sports programs in select countries in Africa, East Asia, the Near East and North Africa, South Asia and the Western Hemisphere. The focus of all programs must be on reaching out to youth ages 8-18. Programs designed to train elite athletes will not be considered. Eligible countries are: Africa (Kenya, South Africa, Nigeria, Senegal or the trans-Sahara for a Francophone regional project (eligible countries included in this regional project must include one country from Morocco, Algeria and Tunisia as well as one country from Chad, Senegal, Niger, Mauritania and Chad); for East Asia: China, Malaysia, Philippines, Thailand and Vietnam; for the Near East and North Africa: Algeria, Egypt, Jordan, Morocco, Oman, Syria, Tunisia, West Bank and Yemen; for South Asia: Bangladesh, India; for the Western Hemisphere: Bolivia, Brazil, Ecuador, Nicaragua and Venezuela.

Department of State
Bureau of Near Eastern Affairs
Middle East Partnership Initiative
Economic Initiatives Program Grant

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	NEAPI-08-CA-007-MENA-110107
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Nov 29, 2007
Funding Instrument Type:	Cooperative Agreement
Estimated Total Program Funding:	\$10,000,000
Award Ceiling:	\$3,000,000
Award Floor:	\$250,000
CFDA Number:	19.500 -- Middle East Partnership Initiative (MEPI)
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Eligible applicants include any U.S. - or foreign-registered non-governmental organization, U.S. - or foreign private institutions or commercial entities, and U.S. state or local governments. NEA/PI encourages applications from partnerships or consortia including local organizations. For the purposes of this RFA, "partnership" is defined as a negotiated arrangement among organizations that provides for a substantive, collaborative role for each of the partners in the planning and implementation of a project.

Description

The Office of the Middle East Partnership Initiative (NEA/PI) announces an open competition for proposals to support economic reform and development in the Middle East. Through the Economic Initiatives Program, NEA/PI seeks to facilitate economic growth among small and medium sized enterprises, stimulate job creation, and promote voices championing more freedom in the Middle East. This is a request for applications (RFA) from organizations with functional and regional experience in the areas of economic governance, organization strengthening, and trade capacity building in the Middle East and North Africa (MENA) region. Applications should specify organization's key competencies in specific areas of economic reform and outline its regional and country-specific expertise. An organization or coalition may submit applications for one or more of the following program priority areas. Program Area 1 – Economic Governance The goal of MEPI programs in this area is to strengthen economic

governance and to improve government accountability and transparency related to commercial transactions across the region. MEPI seeks to identify partners with demonstrated competency to support potential program activities in the following areas: government economic transparency, commercial law, monetary and fiscal policy, regulatory systems, financial sector development and anti-corruption. Program Area 2 – Organization Strengthening The goal of MEPI programs in this area is to enhance the operations and improve the effectiveness of local, national, and regional civil society organizations in the Middle East and North Africa. MEPI seeks to identify partners with demonstrated competency to implement activities in the following areas: legal and regulatory reform advocacy; coalition and network for economic reform, including international dialogue mechanisms; mobilization of businessmen and women around issues related to economic and political reform; political participation of chambers of commerce and other business organizations; oversight of public economic institutions; and development and implementation of strategies for business organizations to be locally supported and financially sustainable. Program Area 3 – Trade Capacity Building The goal of MEPI programs in this area is to strengthen the ability of public and private sector stakeholders in selected MENA countries to engage effectively with counterparts regarding issues related to bilateral or multilateral trade policy. Specifically, MEPI seeks to identify partners with demonstrated competency to provide technical assistance to support ongoing WTO accessions and U.S.-Middle East Free Trade Area processes. Background Information about MEPI: MEPI is a Presidential initiative to promote political, economic, and educational reform, and to empower women in the Middle East and North Africa through results-oriented programs, both regional and specific to individual countries. Reform is important to the U.S. goal of ensuring that the people of the region experience the benefits that come with more open economies, greater educational opportunities, and political freedom. A key element of MEPI is creating links and partnerships between Arab and U.S. civil society, and with governments to jointly achieve sustainable reform. For additional information, please go to <http://www.mepi.state.gov>.

Department of State
Office to Monitor/Combat Trafficking in Persons International Collaborative Partnerships to
Combat Trafficking Grant

Document Type:	Grants Notice
Funding Opportunity Number:	GTIP-07-AW-001-103007
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Mar 03, 2008
Expected Number of Awards:	6
Estimated Total Program Funding:	\$1,200,000
Award Ceiling:	\$200,000
Award Floor:	\$150,000

CFDA Number: 00.000 -- Not Elsewhere Classified
Cost Sharing or Matching Requirement: No

Eligible Applicants

Public and State controlled institutions of higher education
Private institutions of higher education
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education

Description

OVERVIEW: G/TIP invites U.S. non-profit/non-governmental organizations to submit anti-trafficking in persons proposals for capacity-building programs with locally-based organizations abroad. BACKGROUND: The mission of G/TIP is to end trafficking by working in the spheres of protection, prosecution, and prevention. PROPOSAL FOCUS AND GUIDELINES: Programs must include mentoring and partnerships concerning such topics as: developing models for providing comprehensive and effective services for adult and child victims; training initiatives with a focus on identifying and understanding the complex needs of victims; building working relationships with law enforcement responders and other community stakeholders; and, strengthening advocacy skills and public awareness-raising efforts. Applicants can request up to \$200,000 to support programming for 12-24 months. Concept papers must be submitted via grants.gov no later than 11:59pm, EST, on March 3, 2008.

U.S. Department of Transportation

U.S. Department of Transportation
DOT/Federal Motor Carrier Safety Administration
2008 MCSAP High Priority Grant Opportunity (PureEdge Forms) Modification 1

Document Type: Modification to Previous Grants Notice
Funding Opportunity Number: USDOT-FMC-MCSAPHP-08-001
Opportunity Category: Discretionary
Current Closing Date for Applications: Jan 05, 2008
Expected Number of Awards: 40
Estimated Total Program Funding: \$10,000,000
CFDA Number: 20.218 -- National Motor Carrier Safety
Cost Sharing or Matching Requirement: Yes

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)
County governments
City or township governments
State governments

Additional Information on Eligibility:

Organizations representing government agencies or officials that use and train qualified officers and employees in coordination with State motor vehicle safety agencies are eligible to apply. Individuals and businesses are not eligible to apply.

Description

Motor Carrier Safety Assistance Program (MCSAP) High Priority funds will be awarded at FMCSA's discretion for critical national commercial motor vehicle safety initiatives such as improving the quality of State safety data, high visibility traffic enforcement activities, public information and education, enhancements to State training, hazardous materials safety and special research efforts, and innovative State-specific efforts that have the potential for nationwide implementation.

U.S. Department of Transportation
DOT/Federal Motor Carrier Safety Administration
2008 MCSAP New Entrant Grant Opportunity (PureEdge Forms)
Modification 1

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	USDOT-FMC-MCSAPNE-08-001
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Jan 05, 2008
Expected Number of Awards:	40
Estimated Total Program Funding:	\$29,000,000
CFDA Number:	20.218 -- National Motor Carrier Safety
Cost Sharing or Matching Requirement:	No

Eligible Applicants

City or township governments
County governments
State governments

Description

Motor Carrier Safety Assistance Program (MCSAP) New Entrant funds will be awarded, at the discretion of FMCSA, to States and local governments for New Entrant safety audits on interstate motor carriers. States may use these funds for salaries and related expenses of New Entrant auditors, including training, and to perform other eligible activities that are directly related to conducting safety audits. The Federal share for New Entrant grants is established at 100 percent.

U.S. Department of Transportation
DOT Federal Highway Administration
FY 2008 Dwight David Eisenhower Fellowship Program Grant

Document Type:	Grants Notice
Funding Opportunity Number:	FHWA-15X0438000
Opportunity Category:	Discretionary
Current Closing Date for Applications:	Feb 15, 2008 See also special application due date information on: http://www.fhwa.dot.gov/opd/universitygrants
Expected Number of Awards:	70
Estimated Total Program Funding:	\$1,000,000
Award Ceiling:	\$104,000
Award Floor:	\$1,500
CFDA Number:	20.215 -- Highway Training and Education
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Applicants applying for the Eisenhower Graduate Fellowships must: (1) Possess an earned Baccalaureate degree (2) Be confirmed graduating seniors (3) Be enrolled in an accredited U.S. Institution of Higher Education (4) Be pursuing a degree in a full-time program (5) Be in a Transportation-related discipline (6) Conduct ongoing research in one or more transportation-related disciplines (see the list at <http://www.fhwa.dot.gov/opd/universitygrants>) (7) Be planning to enter the transportation profession after completing their higher-level education. ****NOTE****: Non-U.S. citizens must attach a copy of their I-20 or I-551 ID issued by the U.S. Immigration & Naturalization Service (INS).

Description

The EISENHOWER GRADUATE FELLOWSHIP (GRAD) provides funding for the pursuit of Master's Degrees or Doctorates in transportation related fields. The program objective is to attract qualified students to the fields of transportation education and research, and advance transportation workforce development. The Program is intended to help upgrade the scope of knowledge of the entire transportation community in the United States and encompasses all modes of transportation.
